EX-PRINCESS LOSES  
ESTATES; NOW MAKES  
DOLLS FOR LIVING

MME WOLKOFF

Madame Wolkoff was Princess Troubetzkoi of Russia until the Bolsheviks confiscated her estates and property. She fled to London, took the new name and is earning her living by making rag dolls at her home in Gloucester Place.

## British Plan To Extend Military Edict To Include All Of Ireland BEAUTY HELD FOR MYSTERY SLAYING

### KILLS LOVER IN QUARREL, REPORT

Confesses Firing Shot When  
Angered by Sweetheart,  
Police Claim

PASADENA, Dec. 22.—Surrendering after killing her sweetheart, Mrs. Edwin Bailey, 21, was held in the Pasadena jail today on a charge of murder.

She shot Clarence Hogan, a salesman from Oakland, through the heart after they had quarreled in a lonely spot on a road north of Pasadena. Mrs. Bailey declared she had planned to marry Hogan after she had obtained a divorce from her husband, who is in the motion picture business in Winnipeg, Canada.

Hogan and Mrs. Bailey were returning toward the city after an automobile ride. She was despondent and told Hogan, she said, that she was going to commit suicide.

"Well, why don't you do it?" Hogan retorted, she said.

Then, according to her story, she became angered and, while Hogan was driving the car, she pressed the weapon to his side and fired. He staggered from the car and fell dead in the road.

Mrs. Bailey gave herself up after ranchers, who had heard the shot, found her weeping hysterically over Hogan's body.

### FISHER WHIPS BROWN BY QUICK KNOCKOUT

LOS ANGELES, Dec. 22.—Referring to a published report that he had accepted appointment as secretary of state under Harding, Charles E. Hughes today issued the following statement:

"The stories published are irresponsible rumors and I do not care to discuss them."

Previously, Hughes in conversation over the telephone told the United Press he did not have a conference with Senator Knox in Washington yesterday as reported. The Washington story said Knox tendered him the office at a conference in Washington yesterday and that Hughes accepted.

Advices from well informed Republican sources at Marion and Washington, however, indicate there is little doubt Hughes has been seriously considered for the state portfolio and that it may have been offered to him.

It is stated the chief difficulty in the situation is the fact Hughes now has a very lucrative law practice.

### COLORADO IN GRIP OF ZERO WEATHER

DENVER, Colo., Dec. 22.—The coldest weather of the winter was reported here today when the temperature dropped to one degree above zero. A heavy snow was reported in the mountains. Rail and wire communication was demoralized.

### FLOPPY STRAW HATS PARIS STYLE EDIT

NEW YORK, Dec. 22.—"The women are going back to the floppers when summer comes again. Such was the announcement of Mme. Juliette Nicole, a pretty and petite milliner, who has a house here and one in Paris, and who arrived on the French liner La Savoie.

"Straw hats are going to be the headgear for the girls next year," she said, "and especially is the floppy hat going to be much in vogue. But the straws will be little ones and big ones will have much trimming and flowers. In fact, the head of the average summer hat will be a veritable flower garden."

### Texas Veterans In Campaign for Anti-Jap Measure

BROWNSVILLE, Tex., Dec. 22.—Veterans of the World War have renewed their drive against threatened Oriental invasion in the state.

A committee composed mostly of ex-service men will go to Austin to promote passage in the state legislature of the bill directed against sale or lease of land to non-assimilable people and real estate men who persist in selling to the Japanese.

Feeling ran high here today over the rumored sale of 300 acres of land near Harlingen, Texas, by F. Z. Bishop, land man.

Resolutions adopted indicated the residents of the fertile valley are absolutely opposed to Japanese immigration.

### WOULD CURB WORLD ARMAMENTS RIVALRY IN MOVE FOR PEACE

LONDON, Dec. 22.—"There must be a common agreement among all nations not to start again the disastrous rivalry in armaments which will inevitably lead to a clash," Premier Lloyd George declared today in welcoming British delegates from the league of nations in session in Geneva.

"No real peace is possible as long as there is competition in armaments," Lloyd George told the delegates.

### "30" BULLETINS

District Attorney-elect A. P. Nelson made the announcement this afternoon that he would appoint Roland Thompson, of Placentia, as deputy district attorney on January 3, when District Attorney L. A. West's resignation takes effect, and Nelson assumes office. Thompson has been practicing for about seven years, and has recently been associated with T. L. Madden in the firm of Madden and Thompson in Placentia.

### TWO COUNTIES JOIN IRRIGATION PROJECT

MARYSVILLE, Dec. 22.—With the adoption of a constitution and by-laws prepared by a committee for that purpose at a meeting of Yuba and Sutter county irrigation and drainage district representatives the Yuba-Sutter Irrigators' association to promote and protect the economic and political welfare of the irrigation and drainage interests of the two counties, was formed at a special meeting at the Yuba county Chamber of Commerce rooms yesterday afternoon. Final organization of the association is to be carried out at a meeting to be held Wednesday, December 29. When the organization formation is completed special committees will be named to look into the proposed increase of rates by the Pacific Gas and Electric company and to give the decision of the association to the State Railroad Commission at the rate hearing.

### DOG POUND STOLEN.

CHICO, Dec. 22.—Chico's city dog pound has been stolen. This alarming discovery was made yesterday when City Trustee Robert W. Gary and Poundmaster Owen Jones, who made a trip to the pound site for the purpose of inspecting the canine pasture. Upon reaching the site, located some distance from town, it was discovered that the pound had been moved, presumably by someone endeavoring to beat the high cost of wood. "And dog season is ready to open, too," said Jones.

### GUARD CITY'S HEALTH

COLTON, Dec. 22.—Matters pertaining to the city's sanitation were taken up at last night's meeting of the board of city trustees and Sanitary Inspector Deakins was instructed to report all cases of insanitary conditions to the chief of police. The latter will report in turn action taken on such complaints filed with him to the board of trustees at its regular meeting. It is hoped that in this way danger from infection and spreading disease may be avoided.

### COMPENSATION RULE MADE BY HIGH COURT

WASHINGTON, Dec. 22.—The right of Ohio employers to indemnify themselves through insurance contracts against liability growing out of accidents to their employees, and at the same time enjoy their status under the State Workmen's Compensation act, was denied by the Supreme court.

### DUBLIN CITY HALL TAKEN BY TROOPS

Sir Hamar Greenwood Announces New Policy In House of Commons

LONDON, Dec. 22.—Great Britain is considering instituting martial law over all Ireland, Sir Hamar Greenwood told the house of commons today.

Greenwood's announcement followed shortly after crown forces in Dublin took possession of the city hall and other municipal buildings. Heretofore martial law has been in effect only in the southwestern counties.

### NO TRACE FOUND OF MISSING POSTMASTER

COLFAX, Dec. 22.—On November 22 the earth apparently opened and swallowed Edmund Vore, 80 years of age and snowed of head at his home at New England Mills Station, just west of here. Vore disappeared on that date and wide search and the offering of rewards has failed to develop the slightest trace of him. Vore was the merchant and postmaster at New England Mills for thirty years. He is a high degree Mason.

### BANKERS TO MEET AT S. BARBARA MAY 26

Annual convention of the California Bankers' association will be held at Santa Barbara, May 26, 27 and 28. It was decided by the executive council at a meeting in San Francisco. The committee adopted a resolution expressing regret at the death of E. D. Roberts of San Bernardino, a former member of the council. W. W. Wood, vice-president of the First National bank of Los Angeles, was elected to fill the vacancy. The protective department, co-operating with civic authorities, reported 117 criminal cases of bank fraud occurring in the last six weeks. Of the offenders forty-four have been arrested. The association will arrange for a special meeting in January to provide an opportunity for bankers to study the income-tax laws.

### MAN SLAIN IN MEXICO LIVED IN THIS STATE

SAN FRANCISCO, Dec. 22.—John Berens, San Francisco mining man, reported killed about November 29 in the state of Mexico, Mex., left this city last August to try his luck in the southern republic, according to Frank Irwon, a friend. He formerly lived at 575 Shotwell street and was known as a free lance, who never lacked money. Berens was about 35 years of age. He is said to have been left an orphan at an early age and to have had no living relatives. He had traveled all over the world. Frank Irwon of 3824 Nineteenth street received a letter in October from Berens at Mexico City, in which he said he had just left the hospital after an attack of typhoid fever, and was going south to recuperate. Berens owned valuable mining property in Texas.

### SHERIFF OBJECTS TO 'CHAIN GANG' METHOD

PORTERVILLE, Dec. 22.—Sheriff Court Smith of Tulare county declares he is firmly opposed to the "chain gang" method of dealing with unemployment problems, and that so far as he was concerned that method would not be followed with county prisoners. It is Sheriff Smith's opinion that many of the men really are seeking work and cannot be classed as hoboes.

### Suffrage Leader Is Favorite for Place In Harding Cabinet

MRS. HARRIET T. UPTON

Dame Rumor points to Mrs. Harriet T. Upton of Ohio, as the probable head of the new Department of Education which it is thought President-elect Harding will ask congress to create. Mrs. Upton has been active in the woman suffrage movement and has written several books.

### FOUR PERISH WHEN EXPLOSION WRECKS BIG POWDER PLANT

SCRANTON, Pa., Dec. 22.—Four men are known to be dead as a result of an explosion in No. 2 packing mill of the Du Pont Powder Works at Moosic, seven miles from Scranton, today.

The dead are: Samuel Bowen, Edward Croone, Calvin Shotwell and one unidentified.

The explosion shook the central part of Scranton.

All telephone communication with Moosic, which is seven miles distant, was broken by the blast.

Some idea of the force of the explosion could be gained by the fact that the jar violently shook the central portion of Scranton, rattling windows.

Relief workers started for the scene in automobiles.

### USE ARMED AUTOS IN FIGHT ON CRIME

NEW YORK, Dec. 22.—Twenty "crime cruisers" were added today to New York's equipment for shattering the crime wave.

Twenty automobiles, bristling with the latest automatic armament and carrying five police officers each, made their initial cruises today. The policemen had instruction to "shoot to kill" any person caught in a criminal act.

### URGES CHANGE IN LAW FOR FLOOD CONTROL

RIVERSIDE, Dec. 22.—That Riverside, San Bernardino and Orange counties should work together in flood control work, and that effort should be made to so change existing laws that supervisors may spend money outside the borders of their own counties was urged in a resolution offered by Supervisor J. A. Packard at yesterday's Highgrove meeting of the Associated chambers of commerce of Riverside county.

After considerable discussion of flood control work the resolution was referred to the committee on legislation, which will make report at the next meeting of the organization.

### HIGHWAYMAN TAKES \$6500 FROM YOUTH IN L. A. ROBBERY

LOS ANGELES, Dec. 22.—Paul Sauer, 17-year-old messenger for the Security Trust and Savings bank, was robbed of \$6500 in a bold day-light holdup in the downtown district here today by a lone armed bandit.

The holdup took place in an alley near Spring and Fifth streets. Sauer had just emerged from the Farmers' and Merchants' bank and carried the money in a satchel.

Confronting the youth with a revolver, the robber snatched the satchel, dashed out of the alley and was swallowed up in a throng of Christmas shoppers and others.

A score of detectives armed with sawed-off shotguns set out at once in search of the highwayman, described as being six feet, two inches tall, heavy set and poorly dressed. He wore tortoise-shell spectacles and a rain coat and a cheap cap was pulled down over his eyes.

### SOUTHERN PACIFIC'S OIL PROPERTY DEEDED

FRESNO, Dec. 22.—The deal has been completed by which the Southern Pacific divorses itself from the operation of its oil lands, and this branch of activity is transferred to another company independent of the railroad management. According to this deed, under date of last Friday, the Southern Pacific Land company, as the vendor, transfers to the Pacific Oil company, as the vendee, all its oil-land holdings in Fresno, Kings and Tulare counties. The consideration is \$3,310,900, according to the revenue stamps attached to the document presented to County Recorder Barstow yesterday morning.

The transaction is said to be one of the largest on record here, paralleled only by the change of ownership of the Coalinga oil holdings, now in the possession of the Shell Oil company.

### FILIPINOS PLEAD TO CHARGE OF SEDITION

HONOLULU, Dec. 22.—Seventy of the 77 members of the Philippine Constabulary charged with sedition and murder as a result of the recent Manila riots, today pleaded guilty to the charges of sedition, according to advices reaching here from Manila. Attorneys for the defense indicated all will plead not guilty to the murder charge.

### SCHOLARSHIP HONORS FOR COAST STUDENTS

BOSTON, Dec. 22.—Two Pacific Coast students were appointed to Rhodes scholarships at Ithaca as the result of this year's election. It was announced today by Professor Frank Aydelotte of the Massachusetts Institute of Technology, American secretary to the Rhodes trustees. They are Lloyd Hahnel of Silverton, Ore., and Richard H. Scofield of Los Angeles.

Hahnel, who was graduated from Reed College, Portland, Ore., in 1918, is holder of a Carnegie fellowship in international law and is now a student in the Harvard graduate school. Scofield, a graduate of the University of California in the class of 1919 and recipient of the degree of master of arts from the University after a year of post-graduate study, is now in Brussels on a fellowship offered by the Commission for the Relief of Belgium.

### Will Rebuild Pier

The city of Venice was saved, it is believed, only by a timely turn of the wind.

Thornton Kinney, president of the Abbott Kinney company, owners of the pier, announced today the pier would be rebuilt at once.

Every concession and amusement pavilion, including the famous dance pavilion, the Ship cafe, the Auditorium theatre, the Ferris Wheel the Auditorium aquarium, Virginia Reel, Over the Falls, the Airplane, a bowling alley, a skating rink, a billiard hall and a score of small concessions and restaurants were reduced to ashes. The flames originated in the mammoth dance pavilion where about 200 persons were dancing. The great hall was cleared with little confusion. Ten minutes later the roof caved in.

Dynamite was used in an effort to save outer boundaries of the pier, but the attempt was futile.

Carried Small Insurance

More than a score of persons were trapped at the end of the pier. Flames were rapidly crawling up and had almost reached them when they were rescued in lifeboats.

It was announced that the total insurance will not exceed \$50,000. The pier was constructed in 1904 and became the center around which the beach resort was built. The total value of the pier and its concession was placed at between \$5,500,000 and \$6,000,000.

A peculiar feature of the fire was the fact that the newest amusement ride was not swept away. It was the Big Dipper, a huge roller coaster.

Not High Priced

## THOMAS TO OPEN LAW OFFICE IN LOS ANGELES

Judge W. H. Thomas of West First street is to open law offices in Los Angeles in January.

On January 3 his term as judge of the appellate court ends. Owing to the fact that he was unable to make satisfactory arrangements for offices in Santa Ana, Judge Thomas decided to secure offices in Los Angeles and to practice in that county.

The offices secured by the judge are on the fifth floor of the Washington building, corner of Third and Spring streets, Los Angeles.

"My home will continue to be in Santa Ana, at least for the present," said Judge Thomas.

Judge Thomas was practicing law in Orange county when he was appointed judge of the superior court of that county. At the following election he was elected to continue in the position. A year ago he resigned as superior judge in order to accept appointment by Governor Stephens as a judge of the appellate court.

## CHRISTMAS SPIRIT RULES KIWANIS

The Christmas luncheon of the Kiwanis club, today, was rich in the Christmas spirit and the address of the day, by Kiwanian Freeman H. Bloodgood, was one of the best the club has ever heard. It will be published in full, or at least in large part, in tomorrow's issue of the Register.

The Christmas tree afforded much fun, and more — it provided many children with toys, children's books and candy; for all presents suitable for children were turned over to Kiwanian Sam Jernigan with instructions to see that they went where they would do the most good. Such presents as were not suitable for children were retained by the recipients, who turned over to Jernigan a sum of money with which to buy other presents, thus creating quite a fund.

A good many fines were assessed during the luncheon, this money increased to a considerable amount by the contributions of those who were not fined was given to the girls at James' who served the luncheon. Two new members were received into the club, A. J. Crookshank, president of the First National bank, and Dr. A. C. Zaiser.

## OHIO GRID PLAYERS END CROSS-COUNTRY TRIP FOR BIG GAME

SAN FRANCISCO, Dec. 22.—Physically, the invasion of California by Ohio State's football squad was complete today, for the Buckeyes crossed the California line during the small hours of the morning and about 1 o'clock this afternoon they are scheduled to roll into Berkeley station for their first official stop in this state.

Elaborate arrangements for the entertainment of the visitors have been made. Berkeley's mayor and prominent citizens will meet them and show them the town, after which they will come to San Francisco for dinner and for a visit to a theater in the evening. Coach Wilce approved the plans for the entertainment, feeling it would be a little relief after the long train trip.

The Ohioans will leave tomorrow for Pasadena, where they will spend a week training for the big game with California New Year's day.

## FAST GAME FORECAST FOR CHRISTMAS DAY

Prep school football fans are forecasting a fast game Christmas Day when the High school pigskin players clash with their older brothers, the alumni. The scrap promises to furnish more thrills than usual this year. There are being picked for both teams men who have been in training throughout the past season and the weight of the teams will be practically the same.

The alumni athletes are rapidly working out a system of plays that should give Coach Morrison's team some trouble. Among the backfield men are Spangler, Roney, Tyrrell, Frank Robinson and Jerome. Other alumni team men are Catland, Don Smith, W. Dungan, K. Dungan, Frank Kellogg, Clarence Brown, Lynn Crawford, H. Cain and W. Clark.

On the high school line-up will be N. Stark, LeBar, Elliott Best, Cravath, Everett Best, Jabs and Coffman on the line and Wilcox, Williams, Jayne and Knight in the backfield.

## SENATE COAL PROBE BODY TO PROSECUTE ALLEGED PROFITEERS

WASHINGTON, Dec. 22.—Calling of Attorney General Palmer before the senate investigating committee and steps looking toward the prosecution of government officials alleged to have made big profits in the "wild scramble for coal," stood out today as possible developments in the senate's inquiry into coal profiteering. Charges that these things went on were made before the senate committee on reconstruction and production by George H. Cushing, director of the American Wholesale Coal association.

The committee had its experts working on two important lines of inquiry into Cushing's testimony as it convenes today to hear the coal operators' side from J. D. A. Morrow, vice-president of the National Coal association.

## NEW BASKETBALL LEAGUE PLANS ANNOUNCED

Plans having in view three separate divisions, to consist of not more than six teams each, to take part in the Y. M. C. A. Sunday School Basketball league, were announced today by Y. M. C. A. officials, following a recent meeting of the joint committee appointed to act on the matter.

"The committee decided that because of lack of space, together with the fact that the armory, which has been secured for a gymnasium, may be used only two evenings a week, it would be impossible to accommodate more than six clubs in each league.

The Junior league will include boys from 12 to 14, with a maximum weight limit of 100 pounds. The Intermediate league is to include boys from 14 to 17, with a weight limit of 120 pounds. In the Senior league anyone over the age of 18 years is eligible to play.

Play Tuesdays, Fridays  
Representative teams of each league will play Tuesdays and Fridays. The Junior league is to play at 7 p. m., followed by the Intermediate and the Seniors.

Any club desiring admittance to any of these leagues must get its application to the Y. M. C. A. office by Dec. 27. As there are many clubs desirous of entering the league, selection will be made from the first six clubs entering applications.

One of the features of the work at the armory gymnasium planned by the committee is a business men's gymnasium class Tuesday and Friday of each week. This class will start at 5 p. m., and will continue until 6:30. The committee is purchasing volleyball nets, volleyball, basketball balls and indoor baseball equipment for this class.

**Secure Athletic Director**  
The Y. M. C. A. has secured the services of L. W. Archer, athletic director of the Junior high school, to give the business men setting-up exercises. Archer took a special course in the State Normal school in this line of work and has also had army experience as a physical instructor. The committee is now soliciting members for the class.

The limit for business men has been set at fifty men. If many more than this number are secured, other arrangements will be made. The committee is seeking the co-operation of the churches and Sunday schools and also of the people of the community to make this project a success.

## 500 ELKS ATTEND CHRISTMAS JINKS

More than 500 members of Santa Ana Lodge No. 794, B. P. O. E., last night regaled themselves at a big banquet at Elks' hall, and later took part in the lodge's annual Christmas Jinks.

The banquet, prepared under the capable direction of Willis K. Duffy, steward at the Elks' club, was voted a huge success.

Many novel diversions were included in the program of entertainment outlined by the committee in charge of the Jinks department.

The "Bills" voted the affair one of the most successful in the history of the local lodge.

**WILL FILED.**  
The will of Marie Mix, 301 Fruit street, who died recently, was today filed for probate in the superior court. The estate is valued at \$1500, which is to be divided, according to the terms of the will, between the Martin Luther Orphan's Home, San Francisco, and the Evangelische Luthersche Dreieinigkeits Gemeinde, U. A. C. Santa Ana. The will was made on November 8 of this year. Under it the Rev. William Schmoeck of Santa Ana is named as administrator.

**KITCHENWARE STOLEN**  
Homer King, temporarily residing at 621 Hickey street, has reported to the city police the loss of two imitation leather suitcases containing samples of aluminum kitchenware. The articles are valued at \$75. They were taken while King's car was standing on the street.

**LAPROBE STOLEN.**  
County Horticultural Commissioner E. L. Morris has reported to the city police the loss of a brown plaid laprobe which was taken from his machine last night while he was attending the Pilgrim pageant. The robe was taken between 5:30 and 9 p. m.

**ON THE DOORSTEP.**  
The young wife met her husband on the doorstep. Before he had taken off his overcoat, she began: "John, the cook has left."

"Now, Ethel," said the man, reproachfully, "is it right to meet me with such news when I return home late from the office tired out and hungry?"

"But, John, I merely want to say the cook has left."

"Yes; I know you merely want to say. And I merely want to say that it's a shame that this household is always in a state of upset. Other women manage to keep their servants. Why can't you? Why?"

"John, I will speak. The cook knew you would be late, so she left a cold chicken and a custard pudding on the dining room table for you."

"Well, Ethel, why in the world didn't you say that at first?"

**THE MATTER WITH HIM**  
"Come now! Don't look so miserable!" said a Tumlinville photographer. "Just pretend in your own mind that you are going to get married tomorrow."

"Dad-burn the dad-burned luck!" replied the Arkansas sifter. "That's precisely what I am going to do!"

**EXCEPTIONS**  
"Birds of a feather flock together."  
"But how often do you see raven locks with crow's feet?"

See the film at the Temple Theater Wednesday afternoon and evening—"American Catholics in War and Reconstruction."

Candies, priced right, milk chocolates, bitter sweet and a large variety of real Christmas candy at the Dragon.

## CONTROL OF ANAHEIM PAPER IS PURCHASED LOS ANGELES MAN

ANAHEIM, Dec. 22.—It was reported here yesterday that F. W. Kellogg, business manager of the Los Angeles Express, had bought a controlling interest in the Anaheim Herald for \$10,000, and that the manager of the company would be a man named Conkling, who has been associated with Kellogg elsewhere in the newspaper business.

## MARK SET AS 233 SACKS MAIL LEAVE

With the 233 sacks of mail shipped by the local postoffice yesterday, the largest number on record for one day, and a stamp sale of \$55, the 1920 Christmas season as concerns the postoffice continues to maintain the record of an approximate increase of fifty per cent over the corresponding period for last year.

With the \$55 in stamps sold yesterday the daily average for the past seven days is \$640. In 1919 \$440 was the daily average for the corresponding period.

There has been no let up in the number of letters, cards and parcels being passed through the cancellation machine.

Postoffice officials here were of the opinion today that the height of the season was passed for outgoing mail.

Postoffice employees are looking forward to a smaller volume of outgoing mail in the days preceding Christmas. The mail has been rapidly and efficiently handled in spite of the mountains of sacks and voluminous stacks of parcels of all descriptions.

## STAGE DRIVER WINS IN CUTTING-IN CASE

H. D. Jaynes, a stage driver, today stood acquitted in Justice Cox's court of a motor vehicle charge brought against him. He was accused of cutting-in between two automobiles on the public highway. Jaynes pleaded not guilty, and trial came yesterday.

The complaint was sworn to by A. S. Ralph, official of the Orange County Automobile club. According to Ralph's testimony, Jaynes had passed Ralph's car with his stage, and then stopped a few hundred feet ahead to discharge a passenger. Ralph claimed that there was another machine coming down the road at the time, and that Jaynes had no right to pass.

As soon as the stage stopped, Ralph, according to the testimony, stopped and told Jaynes that he was under arrest.

Ralph is a complimentary deputy sheriff, but, of course, carries no motorcycle officer's tag book. The law requires an officer making a motor vehicle arrest to inform the accused in writing of when and where he must appear to answer to the charge. Ralph, according to the testimony, did not do this.

Jaynes, who was defended by Attorney Clyde Bishop, claimed that he had not cut in. Three passengers in the stage at the time corroborated his testimony.

Justice Cox declared that in his opinion no offense had been committed, and acquitted Jaynes. The passengers testifying were C. P. Hawkins, H. F. Stewart, and E. K. Rea.

**MISTAKE IN INITIALS**  
T. H. Fowler, 508 Olive street, formerly of 315 East Fifth street, building contractor, has not left Santa Ana for Kansas City. The report in The Register that he had done so was erroneous, and resulted from a confusion of initials.

**JAIL ALLEGED "VAGS."**  
Three alleged vagrants were arrested last night in the railroad yards by County Motorcycle Officer O. K. Carr, and Officer C. L. Neuschweizer. The men were booked as Jesus Royos, Marsyelda Miramondos and Joe Bellalobos.

**LAPROBE STOLEN.**  
County Horticultural Commissioner E. L. Morris has reported to the city police the loss of a brown plaid laprobe which was taken from his machine last night while he was attending the Pilgrim pageant. The robe was taken between 5:30 and 9 p. m.

**ON THE DOORSTEP.**  
The young wife met her husband on the doorstep. Before he had taken off his overcoat, she began: "John, the cook has left."

"Now, Ethel," said the man, reproachfully, "is it right to meet me with such news when I return home late from the office tired out and hungry?"

"But, John, I merely want to say the cook has left."

"Yes; I know you merely want to say. And I merely want to say that it's a shame that this household is always in a state of upset. Other women manage to keep their servants. Why can't you? Why?"

"John, I will speak. The cook knew you would be late, so she left a cold chicken and a custard pudding on the dining room table for you."

"Well, Ethel, why in the world didn't you say that at first?"

**THE MATTER WITH HIM**  
"Come now! Don't look so miserable!" said a Tumlinville photographer. "Just pretend in your own mind that you are going to get married tomorrow."

"Dad-burn the dad-burned luck!" replied the Arkansas sifter. "That's precisely what I am going to do!"

Henry C. Minter, 45, and Esther E. Eastman, 43, both of San Francisco.

## Births

TAYLOR—To Mr. and Mrs. W. Taylor of Mexico City on Dec. 21, 1920, a 7-pound son, at the Community hospital, Santa Ana. Mrs. Taylor was formerly Miss Flora Hull of Orange.

## Today's Citrus Market

NEW YORK, Dec. 22.—Twenty-four cars oranges and two cars lemons sold. Orange market 25 to 35 cents lower with prices ranging from \$2.03 to \$2.27. Highest price paid for 24 boxes Mount Whitney, \$6.62. Lemon market 15 cents higher with prices ranging from \$2.27 to \$2.77. Weather cloudy, 8 a. m., temperature, 66.

Because of shortage of teachers, thirty-one schools in Illinois are unable to open. The greater number are country schools.

William and Mary college was founded in Williamsburg, Va., in 1683, under a charter from King William and Queen Mary, for whom it was named.

Graduates from dental departments of three American universities—Michigan, Harvard and Pennsylvania—have been selected for work in South Africa.

In 1890 high school graduates numbered 22,000 in the United States; in 1918 an increase of 225,000 was reported, while the present enrollment totals two million.

Obligatory education has been established in Santo Domingo, and there are now 130,000 children going to school, compared with 18,000 before the military occupation.

The "Industrial University" of a rubber company of Akron, O., has an enrollment of 6200 students and a faculty of 117 members. Classes are in session from 7 a. m. to 11 p. m.

Technical training in the process of reading makes it possible to read at the rate of 500 words a minute. In many cases it can be raised to 700 and even 800 words a minute.

Twenty-eight states in the union require attendance at school for the full term provided; the other states require attendance for some fractional part of the term or for a specified number of days.

Candies, priced right, milk chocolates, bitter sweet and a large variety of real Christmas candy at the Dragon.

## THE CHEERFUL CHERUB

The heroes of fiction are prominent souls. With adventures their days are rife. Yet each one of us is a hero as well Of the story of his own life.

## City and County

Fullerton Elks will give their annual Christmas party to the children of the Oil City tomorrow night. Every child in the community under the age of 10 years is invited. A. H. T. Osborne is chairman of the committee in charge and will see that each child is properly taken care of and provided with something to add to its Christmas joy.

The annual Iowa Admission Day dinner and celebration will be held Dec. 28 in the City Club rooms on the upper floor of the Investment building, South Broadway at Eighth street, Los Angeles. Many from Orange county are expected to attend the big banquet, which will start at 7 o'clock. This dinner is one of the three big annual affairs staged each year by the Iowa Association of Southern California.

Mrs. Alva Padgham, who is collecting old magazines for the convalescent soldiers and sailors, urges that persons having used magazines or periodicals which they no longer want, bring them to the Farm Bureau office, 508 North Main street, any day, and they will be taken by army trucks to San Diego for distribution among the soldiers and sailors there. Many of the hospital ships are calling for more magazines for the sick and convalescent sailors, Mrs. Padgham said.

A report was made to City Marshal Sam Jernigan this morning by John Klem, of Anaheim, to the effect that while Klem's machine was standing on the street here last night someone stole the auto-wheel lock. The lock was not on the wheel, but was left in the back seat of the car. Klem gave the number of the lock as No. 956-771.

Carrying out an English custom begun hundreds of years ago, the young people of the Spurgeon Memorial church at 4 o'clock Christmas morning will sing carols in Santa Ana. At least twenty-five of the singers will go from house to house, riding in automobiles. Services will be held in the church from 8 a. m. to 9 p. m., Christmas day. The Rev. J. A. Wallis will speak.

James Sheppard, a Fullerton boy, will head the Occidental college debating team when East meets West in the Occidental-Princeton contest in Los Angeles Tuesday. Sheppard is president of the Occidental student body and is a member of the Tau Kappa Alpha, a national debating fraternity. He is a veteran of many platform contests both in his high school and college career.

A. B. Titcomb, president of the Pacific Electric railway, with a party of company officials, came down from Los Angeles this morning via special car, making the regular inspection of the road. Titcomb said business in Santa Ana seemed to be thriving, asking as to Christmas sales of this year as compared to those of last season. He travels over some part of the road every week. The inspection on this trip showed everything in satisfactory condition, he said.

## PREPARING FOR BIG GATHERING IN CITY PARK

Arrangements were being completed today by Clarence A. Gustlin, president of the Santa Ana Musical association, for the community Christmas tree celebration at Birch park at 6:30 o'clock, Christmas day, Saturday of this week.

The annual Christmas tree celebration has become a big community affair in Santa Ana. Each Christmas some singer of national note is brought to Santa Ana. This Christmas the artist is to be Giachino Ribaud, whose voice has been heard in leading operatic companies in the East and abroad. Ribaud is a tenor of unusual ability; it has been found that for open air singing such as will be heard Christmas night, a tenor voice carries perhaps better than any other.

The musical association has dozens of clippings concerning the concerts that have been given by Ribaud. That he has great charm of voice and will prove highly pleasing in his singing here cannot be questioned. There will also be community singing at Birch park Christmas night. Community singing has come to be a very important part in Santa Ana's community gatherings on Christmas night. There will be singing by the boys' and girls' glee clubs of the high school and by a sextet of well known Santa Ana musicians.

## MYSTERY OF 'SHOTS' AT NIGHT CLEARED

A mysterious firing of "shots" which has been going on in various parts of the city during the past few nights was cleared up today when it was discovered that the supposed shots had been caused, according to police, by Ralph Beltz, of Tustin, who was driving his car about town and making it backfire shamefully. Beltz was arrested and charged with disturbing the peace.

Following numerous complaints, and working on the supposition that some irresponsible or intoxicated person was driving through the streets firing a revolver, City Marshal Sam Jernigan's force has been working vigorously for the past three days to locate the offender.

Beltz explained that he had been causing his muffler to backfire "just for a prank." He denied that he had been intoxicated or had been drinking on the evenings in question.

Beltz was taken before City Recorder Heathman, who fined him \$5 for disturbing the peace, and who warned him that a repetition of the offense would mean a jail sentence.

## RUMOR OF \$100 THEFT IS EXPLODED TODAY

A rumor that there had been a \$100 burglary, and that the burglars had been caught on a P. E. car leaving here yesterday morning, and arrested by a local police officer, was exploded today after it had caused City Marshal Sam Jernigan much mystification.

It seems that some Mexicans who work near Garden Grove but live here had started a fire yesterday morning near the P. E. yard, while waiting for the car. Officer Boynton was notified that a fire had been built in violation of the ordinance, and arrived just in time to find the Mexicans boarding the car. He got on the car with them, and warned them not to build fires in that locality again.

From these facts it is just as clear as mud to see just how the rumor about the \$100 burglary and the arrest of the burglars started.

## BAD CHECK CHARGED

J. M. Armstrong, charged with a felony in connection with an alleged worthless check, was today in the county jail. He was brought back from Riverside, where he was arrested, by Sheriff C. E. Jackson. It is alleged that Armstrong gave the check, which is for \$109.20, to Y. Cerda about two months ago. The check, drawn on the Bank of Orange, was returned to Cerda with the notation "n. s. f."

BENJAMIN VS. SCHUMAN  
PORTLAND, Ore., Dec. 22.—Joe Benjamin and Heine Schuman will furnish the main attraction at the Milwaukee arena tonight. They are booked for ten rounds. Frankie Murphy and Lloyd Modden and Harlan Bunker and Ole Anderson are also carded for ten round events.

Retrenching  
The Wedding Guest—I notice you cut out the practice of throwing old shoes after the bride. Silly custom, wasn't it.

The Bride's Father—And wasteful. After paying the wedding expenses my family will be wearing those old shoes for a year or so.—Houston Post.

Irrepressible Promoter.  
"A 'get-rich-quick' promoter has finished serving his prison sentence."

"I suppose he improved the shining hour and left with the best wishes of everyone at the prison."  
"Oh, yes, particularly of the warden, who invested the savings of a lifetime in a new scheme guaranteed to pay a profit of 100 per cent.—From the Birmingham Age-Herald."

To foster closer relations between Belgium and the United States, an exchange of university students between the two countries has recently become effective with the admission of 24 Belgian students to American universities and 22 Americans to Belgian universities.

Pupils in the manual training classes of the public schools in Philadelphia are assisting the board of education in running the schools on the greatest possible economic basis. Not only do the boys make new furniture for the schools, but repair and remodel the old desks and chairs.

## WILSON AND HARDING WILL DINE TOGETHER AFTER INAUGURATION

WASHINGTON, Dec. 22.—Woodrow Wilson and President-elect Harding will lunch together at the White House following the informal inauguration at noon on March 4, according to plans announced today.

Immediately after the luncheon, the man who has lived in the executive mansion for eight years will go to his new home at 234 S street. Secretary Tumulty said the president plans to ride to the capitol from the White House in company with Senator Harding. After the ceremonies they will return for luncheon at the White House.

Tumulty said the president's health has improved greatly in the last two weeks and he is planning to plunge into writing a series of articles and books immediately after he leaves the presidency.

The president did not mention any plans for an autobiography or memoirs, Tumulty said.

## MAN IN GIRL CASE GUILTY, SAYS JURY

The jury in the case of E. H. Berger today had on a file a verdict of guilty as charged in the information. The case went to the jury shortly after noon yesterday, following the closing arguments by District Attorney-elect A. P. Nelson, and Defense Attorney A. E. Koepsel.

Berger was charged with a felony in connection with a statutory offense against Dorothy Muirhead, 15, daughter of his housekeeper, Mrs. Cecile Muirhead.

The prosecution introduced in evidence a document purported to have been written by Berger in which Berger assigned and deeded to Mrs. Muirhead "for value received" his entire interest in his ranch and all his ranch and personal property.

Mrs. Muirhead testified that Berger had pleaded with her to "give him his machine and 24 hours in which to get out of the state," and that if she did so he would give her everything he owned. She said she refused.

Berger took the stand in his own defense, and claimed his arrest was merely the result of a "plot" by his neighbors, who, he said, had been threatening to "run him out of the country" for an alleged similar complaint made and placed against him two years ago.

Those on the jury were: Lola P. Bennett, Hattie L. Dunn, Luella Parker, A. L. Cotant, W. D. Baker, Earl Marshall, C. B. Campbell, J. Roy Smith, Willis Maple, H. A. Stewart, Oscar P. Bunyard and H. A. Diekel.

## FRESNO JURORS IN VICE GANG INQUIRY

FRESNO, Cal., Dec. 22.—The Fresno county grand jury today planned to take up an investigation designed to determine whether Fresno has an alleged vice gang which is a parallel to the so-called Howard street gang of San Francisco.

Saturday night the police here started a clean up of undesirables. Fourteen arrests have been made and as a result indictments are to be asked, it was announced, against Charles Mitchell, Frank Silva and "Jinks" Ermick, charging them with assaulting a 15-year-old girl.

Ten Men Involved.  
Police declared they have evidence which causes them to believe probably ten persons were involved in the alleged assault, and that it is but one case out of probably a half dozen in which they believe the alleged gangsters are implicated.

The police said that the alleged method of operation of the supposed gang was almost identical to that supposed to have been followed by the San Francisco gangsters.

Enticed From Dance.  
The girl, they charged, was enticed away from a public dance hall in an automobile, was taken to a city park and there assaulted by several men. She was then sent home, police say, with a threat of personal violence should she tell her story.

The girl's name has been withheld.  
The three men the grand jury is expected to be asked to indict are held in jail here together with several others who are detained pending efforts to identify them.

Candies, priced right, milk chocolates, bitter sweet and a large variety of real Christmas candy at the Dragon.

Christmas gift—\$200.00 off new Maxwell and new Paterson "6"—521 N. Main.

### GOOD EVENING

Truth is as impossible to be  
soiled by any outward touch as  
the sunbeam.—Milton.

### CANDLES AND FIRES

The beautiful custom of lighting  
the "Christ Child Candle" in the  
window Christmas Eve is growing in  
this country, and The Register would  
encourage it.

But at the same time it would  
sound a warning against the great  
danger of fire that is involved in the  
custom, if the words "candle" and  
"in the window" are construed liter-  
ally.

The word "candle" is probably  
used because some sort of "candle"  
was the only means of lighting a  
window when the Christ Child came,  
and because of the alliterative beauty  
of the phrase, Christ Child Candle.

But the sweet spirit of the custom  
will not be lost if electric candles  
are used in the form of a droplight  
suspended from a cord, or even a  
flash-light so placed that its rays  
will shine out through the window.

In many homes, with the room well  
lighted, the curtains drawn aside  
and a Christmas wreath hung in the  
window, the desired effect can be  
obtained. Or even a small lamp or  
lantern may be used with more safety  
than a candle. But even these should  
be placed clear of the curtains; or,  
better still, the curtains should be  
removed altogether—certainly this  
should be done if candles are used.

The reality of the danger involved  
appears in the fact that figures just  
compiled by the National Board of  
Fire Underwriters show that there  
was approximately \$17,500,000 worth  
of damage done by fires caused by  
open lights in the years 1915 to 1919,  
inclusive, not to mention the loss of  
life incurred.

### NOT HERE

That Washington dispatch indicat-  
ing that the mails are not being lib-  
erally patronized by Christmas giv-  
ers may "go" for the capital city and  
the eastern part of the country, but  
it falls utterly to describe what is  
happening in California. The local  
postoffice lobby has never been so  
thronged 10 days before Christmas  
as it was during the week, and long  
lines of impatient patrons told the  
story of gifts going far and wide with  
the holiday message to friends and  
loved ones.

Perhaps it is true that St. Nicholas  
will travel somewhat light in parts of  
the land, but if we may judge from  
what we see, he will need an extra  
reindeer when he starts for San Ber-  
nardino.

### BETHLEHEM BOYCOTT

The Bethlehem Steel company has  
announced, through its president,  
Eugene G. Grace, that it will refuse  
to sell fabricated steel to builders  
and contractors who expect to use  
the steel on a union shop basis.

This is no more nor less than a  
boycott of union labor.

If the principal of the boycott is  
wrong, or at least dangerous, as a  
weapon in the hands of labor, is it  
any less wrong and dangerous in  
the hands of capital?

The Bethlehem Steel company, or  
any other company, has, of course,  
the right to say whether it will con-  
duct its own business according to  
the open or closed shop principle. It  
has the right to say in any way, as  
long as it does not violate fundamen-  
tal human or legal rights, just how  
its own business shall be conducted.

But has any corporation the right  
to dictate how other businesses shall  
be conducted? Has it the right to  
dictate methods to its customers?

Either a corporation is big and  
strong enough to get away with the  
policy of dictation to its customers,  
or it is not. In the latter case it  
simply loses on the main proposition  
—the dictation doesn't work, and the  
corporation must take its customers  
on their own terms, or go out of busi-  
ness. In the former case it becomes  
a tyranny, having no place in Ameri-  
can institutions.

This is not at all a question of  
whether or not the open shop prin-  
ciple is normally or economically  
sound. It is a question of a corpora-  
tion seeking dictation by means of  
the boycott. The nation will watch  
with much interest to see how far  
it is able to go with its publicly an-  
nounced program.

### DISARMAMENT POLICY

In a recent address in Philadel-  
phia, Gen. Tasker H. Bliss made  
these interesting suggestions, as pro-  
posals which the United States  
might make to the other powers for  
the promotion of world peace:

"We will agree with you that each

nation that so desires shall keep  
and build whatever frontier and  
coast fortifications it wishes. Forti-  
fications cannot stride across the  
earth, devastating fields and destroy-  
ing cities.

"We will agree with you that each  
nation may maintain a navy. No navy  
without an army can conquer and  
hold foreign territory.

"We will agree with you on a date  
when we shall simultaneously  
abolish any military system which  
is solely necessary for international  
war.

"We will agree with you on a date  
as remote as the existing conditions  
make absolutely necessary when we  
shall begin the gradual reduction of  
our armed forces until they are at  
the limit necessary for the mainte-  
nance of internal order. In coming  
to an agreement about this we will  
accept any reasonably just principle  
of proportion, provided it results in  
a reasonable and material reduction,  
but admitting in advance that re-  
duced armaments can no more be  
equalized than excessive ones. We  
will trust to the good sense of the  
common peoples of the nations, who  
suffer most from excessive arma-  
ments, to see to it that when the  
movement has once begun it is  
pushed as rapidly as may be to its  
proper limit.

"We will agree with you on the  
proper amounts of material to be  
kept on hand for the reduced forces,  
and we will further agree with you to  
cease the manufacture of material  
until the amounts now on hand are  
reduced to what we agree upon as  
necessary for 'the reduced forces.'

Some of these proposals are novel,  
particularly the one permitting  
navies of any size, provided armies  
are limited. All of them are worth  
discussing at this time, particularly,  
when the League Assembly at Gen-  
eva has made disarmament a uni-  
versal topic, and all the world is look-  
ing to the United States for some  
word as to its future military policy.

### Absentee Farming

Fresno Republican

A farm publication maintains with  
some heat that a farmer who has  
through thrift, hard work and fore-  
sight laid up a competence has just  
as much right to retire for a peace-  
ful old age on his savings as a busi-  
ness man has to "retire." To be  
sure.

But one of the troubles of our farm-  
ing situation is that it is not the  
thrifty and hard working farmer  
that retires, but his sons. The man  
well into middle age who has earned  
a rest, frequently takes it, but not  
always. Often the habit of industry  
continues through life way beyond  
the time when a farmer is well able  
to pension himself off on his own  
earnings and savings.

Retiring from business is not an  
evil, but a good example of what  
men should do for themselves and  
for society. The damage is done  
when the farmer permits or en-  
courages his sons to become retired  
capitalists on the proceeds of the  
land that he has earned, long before  
they have reached the retiring age  
and before they have themselves  
added their share to the stored cap-  
ital of the country.

It is quite inaccurate to assume  
that the only idle rich are those  
playing tennis at Newport or sailing  
yachts in the Mediterranean. The  
country is thickly peppered with  
young men, only one generation re-  
moved from honest toil and laudable  
self interest, who have joined the  
drones class. They increase the per-  
centage of farming lands that are  
handled by tenants or are sold to in-  
crease the size of estates run by the  
agency of expert superintendents  
and unskilled labor. They form an  
inconspicuous landed aristocracy, but  
one that helps to drain the farming  
districts of the men and women that  
should uphold and maintain its at-  
tractiveness for living.

It is bad public policy to assume  
that the "rural districts" shall con-  
tinue to be populated by newcomers.  
A part of the return to the soil  
movement should be a policy of  
maintaining farming on such a plane  
that the farms are usually handed  
on from generation to generation as  
are other occupations.

Our memory goes back to the time  
when a girl's idea of daintiness in  
attire was red slippers, hardly show-  
ing—Columbus Ohio State Journal.

## The People's Forum

Brief communications will be pub-  
lished under this heading, provided they  
be signed by the author. However,  
the Editor shall be the sole judge as  
to the propriety of publishing any  
communications, and the Register  
assumes no responsibility for any  
views expressed in this column.

WHAT THE DEVIL DID TO EVE  
Any cult or theory which raises  
doubt in the mind of him who reads  
it, does what the devil did to Eve.  
He said:

"Yea, and hath God said?" "Hath  
he said you cannot? I say you  
can!"

And the moment doubt was im-  
planted, disobedience followed. And  
this has been the natural trend since  
then.

God's Word is so wonderful that  
it transforms an unsafe quarter into  
a haven of security. Take it away  
or lessen its power through doubt,  
and we devotee into savagery.

The Bible cannot be ditched up in  
cafeteria style, i. e. take what you  
like. No. You will take it all  
or none!

The whole Bible is a blessing to  
him who takes it. Doubt it, and "it  
is the stone on whomsoever it  
shall fall, it shall grind him to pow-  
der." Luke 20:18. When once "His  
wrath is kindled but a little," Psalm  
2:12.

The pulpit rang during the war  
with the curses which really follow-  
ed the teachings of Prof. Neitche,  
who had fallen in love with Thomas  
Paine's views and gave them as  
facts. Shall we now permit the  
same thing in America?  
God forbid!

—CONSTANT READER.

## The Russian Experiment

Says Lincoln Steffens: "It is a fortunate thing for the world that  
orthodox Marxian Socialism has fallen into the extraordinarily able hands  
of sincere men in Russia. If they make it work, they will bless the world.  
If they fail, the rest of the world will be able to work out some better sys-  
tem. The part of every true American is to aid them in making good the  
trial."

Most Americans are less tolerant of Bolshevism than Mr. Steffens is,  
and less convinced of the sincerity and ability of the men responsible for it.  
Still, in the main, Mr. Steffens' view is probably right. Socialism, as some-  
body once said of Christianity, "had never been tried." It remained a mere  
theory, but a theory which appealed strongly to many minds in every land,  
and which often made trouble because of the flaming opposition of such  
minds to more slow-moving and conservative systems. It was desirable  
that the doctrine should be given a practical test, on a big scale, so that  
mankind might learn once for all, by a spectacular demonstration, whether  
it would work.

Russia is now giving such a demonstration. The experiment is pretty  
hard on the Russians, but if they can stand it, the rest of the world should  
be able to. If the result is a catastrophic failure, as most Americans expect  
it to be, the lesson will certainly be worth to America all it has cost Russia.

## Worth While Verses

### "THE TEST"

You pledge me a life's affection;  
You promise a tender care;  
You show me a record, shining  
With the jewels of honor there.  
But yet I stand in askance  
For you must have passed a test  
Before I can judge you worthy  
To trust, and to give me best.

Do you love the tints of the sunrise,  
The mauve and pink and gold,  
As out of the mists of morning  
Their gauzy webs unfold?  
Do you love the brooklet's murmur  
As it flows through the mossy glen;  
The soft sweet music, meant to soothe  
The tired hearts of men?

Do you love the green of the ocean,  
As it bathes the silvery shore;  
Crooning its song of battles won  
In the ages gone before?  
Do you love the night-wind's whisper;  
The rainbows fairy lane;  
And the tremulous restful lullaby  
In the drip of the summer rain?

Do you love the measure and rhythm  
That flows from a poet's pen;  
And the limpid flow of thoughts that tell  
Of the passions and hopes of men?  
Can you grasp the wonderful sweetness,  
In that old, old tale of love;  
Whether the nightingale's even-song,  
Or the gentle coo of the dove?

Can you drink in the essence of beauty;  
Does it lighten your weary heart;  
Whether splashed on the canvas of Heaven  
Or displayed in a worldly mart?  
Can you down the phantom of evil  
By the good in your infinite mind;  
Does your soul vibrate to the hopes before  
Rather than cares behind?

For this is the test my heart demands  
Before I can trust your love;  
A joy for the beauties of earth beneath  
For the wonders of sky above.  
For unless you can see the glory  
Of creations wondrous plan  
You cannot have in your innermost heart,  
The love of God or man.

—Earle Whitcomb Carter.

## Today's Talk

By George Matthew Adams

### THE REST DOESN'T MATTER

The other day my attention was called to a long article in a prominent  
paper from a "critic" who didn't seem to like these little Talks of mine at  
all.

He said that as "literature" they were far below mediocrity, and when  
it came to "style" they were "vulgar." Well, when it comes to classing them  
as literature, I suppose he is right, for they are NOT written to be bound  
in books that find places on shelves to play hide and seek with dust and time.  
These little Talks are written solely—to help people.

If they don't do this, they are not worth appearing anywhere.  
But when my unknown friend called the style of these daily Talks  
"vulgar," I am sure I do not know what he meant. ("Critics" are prone  
to such talk.)

After one of Henry Ward Beecher's stirring sermons, a man stepped  
up to him and said: "Mr. Beecher, did you know that you made a gram-  
matical error in your sermon this morning?" "A grammatical error?" ex-  
claimed Mr. Beecher, "I'll bet my hat that I made a dozen!"

And that is the way I feel about these brief Talks that you honor me  
by reading from day to day. I do not aspire to make them literary classics.  
I want them to help you. I want them to inspire you—to make you think.  
I want them to suggest something to you that will help to make your day  
brighter and better.

If I am able to do this, I am sure that the rest doesn't matter.  
We are so very much alike—we humans. We like "pats on the back."  
Somehow life seems so much finer when someone has told us that we are  
able and helpful and worthy.

Try to get the spirit of these little Talks in this light, will you please?  
Thank you!

## Jokes, Joshes and Jingles

### REMARKABLE REMARKS.

Senator Harding—I am a nut about  
France.

Mary Pickford-Fairbanks—I am  
not going to write a book.

"Bugs" Baer—The United States  
is dryer than an undertaker's eye.

Rev. Percy Bearmer—The clergy  
and church officers should take the  
lead in organizing Sunday games.

Rev. E. S. Synott—I have seen the  
sorrowing men and women after a  
funeral gorging themselves as though  
they were eating their Christmas  
dinner.—From the Independent  
(N. Y.)

### MEMORABLE SUIT.

"Have you ever appeared as a wit-  
ness in a suit before?" asked the  
bully-ragging attorney.

"Why, of course!" replied the  
young lady on the witness stand.

"What suit was it?"

"It was a blue suit with a white  
collar and white cuffs and white bot-  
tom all the way down the back,"  
replied the lady.—Union.

### SEVERELY SO.

Summoning all the pathos possible  
into his voice, the amateur settle-  
ment-worker was addressing his au-

dience on the subject of certain pov-  
erty-stricken foreigners, who, if they  
weren't wretchedly miserable, at  
least ought to be.

"Think of it," he cried, dabbling  
at his eyes. "There are people down  
there who live on garlic alone! Im-  
agine it! Garlic alone!"

"Well," called back the Old  
Grouch, as he made his way down  
the aisle toward the nearest exit, "it  
they live on garlic, they ought to live  
alone."—The American Legion  
Weekly.

### ART.

"Pa, what's an actor?"

"An actor, my boy, is a person  
who can walk to the side of a stage,  
peer into the wings at a group of  
other actors waiting for their cues,  
a number of bored stage hands and  
a lot of theatrical odds and ends and  
exclaim, 'What a lovely view there is  
from this window!'"—Birmingham  
Age-Herald.

### POSSIBLY.

Hatters say that the price of rab-  
bit skins is likely to ruin the trade.  
Meanwhile the mere act of getting  
the skins is apt to ruin the rabbit.

—From Punch, London.

## Little Benny's

Mr. Parkins came to see my sister  
Gladdis yesterday, coming so early  
that he was here for supper, being  
stuffed veal, and I was out in the  
kitchen smelling the different smells,  
and Gladdis came in, saying, Well  
Nora is everything all right?

Wy shouldent it? sed Nora, and  
Gladdis sed to me, Now Benny try  
to behave yourself at supper so  
Mr. Parkins will think you're a civilized  
human being and for goodness sake  
remember to say filling and not stuff-  
ing, and sauce, not gravy, any can-  
niballs say tuffing and gravy.

Will you give me a nickel if I do?  
I sed.

O I suppose so, sed Gladdis, and I  
sed, Will you give me a dime?

I will not, sed Gladdis, and I sed,  
Well Ill say filling for a nickel but  
I wont say sauce, I charge a nickel  
a word.

I never saw sutch a profiteer in my  
life, sed Gladdis.

Meaning life, and pritty soon supper  
was ready and everybody went in  
and sat down including Mr. Parkins,  
and ma started to put things on the  
different plates and I sed, Wen you  
get to my tern ma give me plenty  
of filling an sauce.

Do you meen stuffing and gravy?  
sed Mr. Parkins, things must be in  
a pritty bad way wen boys start to  
say filling and sauce for stuffing and  
gravy, I consider stuffing and gravy  
2 of the noblest words in the lang-  
uage.

So do I, Mr. Parkins, sed Gladdis,  
I love old fashion homely words, me  
saying, Well then G, Gladdis, gosh,  
wat the heck, and Gladdis quick sed,  
That will do frum you, dont inter-  
rupt, speak wen you're spoken to.

Me thinking, Well holey smoke Ill  
be darned wats you know about that.  
Proving the more you try to please  
people the more you dont.

### OPEN TONIGHT

## Our Gift Stock Will Not Be Shot Until Christmas Morning—

If this was just the average men's store that only entered  
into the Christmas spirit for the sake of the dollars and  
cents—you would find our stock of men's gifts pretty well  
shot by now—to a place where if you came in for a Bath  
Robe you might have to take a traveling bag.

But we don't believe that any Christmas stock should be shot before sunrise on Christmas  
morning—for we know a lot of folks who wait until the eleventh hour—and their trade is  
worth catering to.

Today—Tomorrow—and right up until the last stocking is hung on Christmas eve you will  
find the gifts you are looking for at Vandermast's because we keep the new goods coming in  
right up until the 24th.

**THE SOCIAL MIRROR****Pretty Church Wedding at St. Joseph's Church**

An impressive church wedding was solemnized at St. Joseph's Catholic church Monday evening at 7:30, when Mr. Frank Carrillo and Miss Mercedes Ana Romo were united in marriage.

The bride was beautifully attired in white crepe-de-chine, with graceful bridal veil to match. The attendants were Miss Elvira Barbachano, bridesmaid, and Mrs. Solomon Gonzales, matron of honor. The little train-bearer, Erminia Dominguez, was daintily dressed in pink.

The main altar of the church was banked with pink and white carnations, in abundance. The double ring service was used and the bridal party stood at the foot of the altar.

Mr. Manuel Romo, brother of the bride, was best man, and Mr. Solomon Gonzales, attendant. While the ceremony was being performed, a beautiful violin obligato was played by Prof. Godfrey Andrist, with organ accompaniment by Mrs. Andrist.

The wedding party then drove to the home of the bride's parents, 113 Lacy street, where a delicious wedding supper was served.

The bride is a daughter of Mr. and Mrs. David Romo, of this city. The groom is the son of Mr. and Mrs. R. Carrillo, of San Bernardino, and has been employed at the White Cross Drug store, Santa Ana, for several years, as pharmacist. The parents of the bride and of the bridegroom were present.

The happy couple left on a honeymoon trip to San Diego late Monday evening, and upon their return will reside at 205 South Broadway.

For the journey Mrs. Carrillo wore a dark brown travelling suit, with accessories to match.

**Will Practice Exercises**

All participants on the Christmas exercises at the First Christian church, except those in the primary department, are asked to come to the church tomorrow at 7:30 p. m. for practice.

**Christmas Exercises Planned**

The Christmas exercises at the First Baptist church this year will take the form of a Christmas pageant, and will be given at the church tomorrow at 7:30 p. m.

There will be twenty or more persons in Oriental costume. An attractive program has been arranged.

The admission will be, one Irish potato, one sweet potato and one apple, to be distributed among the church members by the Bible school committee. A silver offering will also be taken.

A presentation of the pageant will be given at the Mission Bible school at Delhi this evening.

**American Legion Dance**

The committee in charge of the Christmas dance to be given by Santa Ana Post No. 131, American Legion, is working overtime on arrangements for the affair, which will be given Friday evening at Athletic hall, corner of Third and Spurgeon. Chairman Art Angle of the entertainment committee is making preparations to handle one of the largest crowds of the season.

Wayne Stewart, in charge of the decorations, has had his crew of "hustlers" working every night this week and he promises something above the ordinary in decorations.

There will be a number of prizes and favors. Punch will be served. Fred Chapman has secured additional musicians for the occasion, and a wonderful time is promised.

Many out-of-town people are expected, as well as many students who are home from college for the holidays.

**THE FAIRY FOLK.**

Come cuddle close in daddy's coat

Beside the fire so bright, And hear about the fairy folk

That wander in the night, For when the stars are shining

And all the world is still, They float across the silvery moon

From hill to cloudy hill.

2  
Their caps of red, their cloaks of green,

Are hung with silver bells, And when they're shaken with the wind

Their merry ringing swells. And riding on the crimson moth,

With black spots on her wings, They guide them down, the purple sky

With golden bridle reins.

3  
They love to visit girls and boys

To see how sweet they sleep, To stand beside their cosy cots

And at their faces peep, For in the whole of fairy land

They have no finer sight Than little children sleeping sound

With faces rosy bright.

**PERSONALS**

Mr. and Mrs. Henry I. Padgham of Los Angeles were week-end guests of Mr. and Mrs. A. J. Padgham, 208 East Ninth street.

A. J. Strube and family have left Santa Ana for a trip to St. Louis.

G. L. Snyder of Laguna Beach was expected to arrive today at Kansas City, Mo. He left Santa Ana Monday via the Santa Fe.

T. C. Brunton, 1056 West Fifth street, has started on a trip to Ottawa, Canada.

Martin V. Biggs, local clerk for the Santa Fe, was in Los Angeles yesterday on business.

Jesse Hodge of Hollywood, who has been the house guest of Mr. and Mrs. Clarence Gustlin, 816 North Main street, returned to his home today.

Mrs. Ella Campau, 801 French street, left today to spend the holiday at the home of Mrs. William Alden Smith, Jr., San Diego.

L. P. Williams, 1226 West Fourth street, has recovered after having been ill for eight days with grip.

Mrs. Virginia Matteson, with her daughter, Miss Hattie Matteson, and granddaughter, Miss Meta McKeen, of Morris, Ill., have been spending the past week at the home of Mr. and Mrs. W. D. Baker, 618 French street. Mrs. Matteson is an aunt of Mr. Baker. From here the visitors will go to Long Beach to spend the winter.

Dee Chase of Garden Grove, who arrived home from Berkeley Monday for the Christmas vacation, went to Long Beach today on business.

Mr. and Mrs. Joe McElroy, of Needles, arrived yesterday evening, to visit with Mrs. Lottie Grouard, 1076 West Fourth street. Mrs. McElroy was formerly Miss Ruth Grouard.

**CADDOCK DOWNS SANTEL.**  
SAN FRANCISCO, Dec. 22.—Earl Caddock took the victory in his wrestling bout here last night with Ad Santel. Caddock won the only fall of the bout in one hour, 37 minutes, five seconds.

**FOR RENT**—Furnished apartment, conveniences, sunny side, La Una, 305 W. Palmyra, Orange.

**Luncheon at Mary Louise Tea Room**

The teachers of McKinley school gave a four-course luncheon in Los Angeles yesterday afternoon, at the Mary Louise Tea room, complimentary to Miss Mary Andrews, principal of the school.

The table was prettily decorated with pink and lavender sweet peas. Covers were laid for:

Misses Mary Andrews, Gertrude Potts, Grace White, Flora Crawford, Eunice Bauer, Emma Hasty, Artie Cleveland, Beatrice Baker and Frances Goodale.

**Hermosa Chapter, O. E. S.**  
After the regular meeting of the Order of the Eastern Star, Hermosa Chapter, Monday evening at the Masonic Temple, the members, with their children, assembled in the banquet room, expectantly eager, for the appearance of Santa Claus.

A short program of Christmas carols and recitations was given. Then was presented a beautiful tableau of the "Babe in the Manger," with the Three Wise Men paying homage to the New-Born King. Meanwhile, in an adjoining room, "Holy Night, Silent Night," was being sung by a chorus of sweet voices.

The faint tinkle of bells announced the coming of Santa Claus, who made his entry through an improvised chimney place, with his pack full of gifts, which was quickly distributed among the children. Each person present received, also, a Christmas stocking filled with candies, apples and nuts.

Great credit for the success of the entertainment is due Mrs. H. Clay Kellogg and her corps of workers. About 225 attended.

**"American Catholic in War and Reconstruction" at the Temple Theater Wednesday.**

**NEVADA CO. SHIPS 40,000 BOXES FRUIT**

GRASS VALLEY, Dec. 22.—The fruit shipments to the Eastern markets from Nevada county for the 1920 season totaled about 40,000 boxes, the lowest for several years, according to final figures compiled by the county horticultural commissioner. Pears, plums, peaches, apples and grapes made up the shipments in the order named. It is explained that large quantities of fruit, particularly apples and grapes, were sold in bulk and transported out of the county by trucks, no record being made as to quantity.

**SCHOOL TO ADVANCE PHYSICAL EDUCATION**

FRESNO, Dec. 22.—A valley branch of the American Physical Education association was formed at a meeting held in the Fresno high school. Representatives from the many schools throughout the valley were in attendance. Louis F. Battersby, director of athletics of Fresno high school, was in the chair. An explanation of the aims and desires of the association was made, showing that the purpose of the organization is to bring the schools of the valley closer together along lines of physical education.

**FLOUR MILLS ORDERED TO TAKE CARE OF MEN WHOM THEY LAY OFF**

TOPEKA, Kan., Dec. 22.—Flour mills in Kansas which have curtailed production must take care of faithful and skilled men during the period of industrial depression so that these employees may provide a living for their families, the Kansas court of industrial relations ruled in an opinion today.

"American Catholic in War and Reconstruction" at the Temple Theater Wednesday.

**Sweaters Make Fine Gifts—**

OPEN NIGHTS

### It Was a Deep Shaft

Two mining engineers were discussing deep mine shafts, and one had told in glowing terms about mines in which he had worked. "Jump into my car and I'll show you a regular mine," said the other. Arriving at the mine they saw the hoisting engine revolving at a terrific rate. The engineer was asleep. Rushing to the sleeping man they cried: "Wake up, man! You'll pull the cage through the roof!" "What day is this?" the engineer asked sleepily. "It's Tuesday, but stop that engine quick." "Ah, gwan," he replied, disgustedly, settling himself back in his chair. "She won't be up till Friday." From Science and Invention.

### Wrote It Too Soon

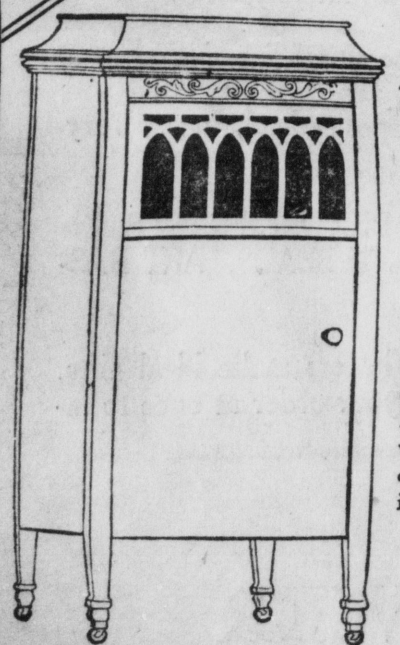

It is on record that when Kipling was on one of his American tours he quarreled with his hotelkeeper. Just before leaving the hotel he wrote in the visitors' book: "I just want to say that of all the hotels under the shining sun I have never been in one that for unmitigated all-round, unendurable discomfort could equal yours." A few minutes later the bill was presented. The final item read: "To impudence, \$3."—From the Pittsburgh Chronicle-Telegraph.

### Accomplices

Judge—Where were your supporters in this crime?  
Prisoner—I had them on, judge.—From the Standard Chaparral.

As soon as a hit is a hit, it's a Pathe Record.

**Here's a Real Phonograph that Plays All Records**

ALL sorts of reasons why you'll choose a Pathe when you buy your new Phonograph.

And the biggest reason of all is the music. Get a Pathe Phonograph—and you have the open door to all music. It will play all records, and play them right. Why, you don't know how good any record can be till you play it on a Pathe Phonograph. In the vivid, rich, round, natural quality of its tone the Pathe is supreme.

**Pathe**

There's a Pathe schedule of deferred payments that's the most convenient thing you ever met. Ask us about it.

## SANTA ANA HAS 150 TICKETS FOR GAME

An allotment of 150 tickets for the football game to be played at Pasadena New Year's day has been made to Santa Ana through its Chamber of Commerce.

Applications for 342 tickets have been filed with J. C. Metzgar, secretary of the Chamber of Commerce. Metzgar will distribute the tickets in accordance with the time of the filing of applications. That is, the first 150 tickets applied for will be distributed, excepting that no more than four tickets are allowed to any party.

"Having requests for such a large number of tickets and being unable to meet half of the requests, the only fair thing for the Chamber of Commerce to do," said Metzgar, "was to decide upon distribution according to time of filing requests. We have notified those who will be unable to get tickets from our allotment. The tickets have not yet arrived. They will be here the first of next week, and are to be paid for at this office. The tickets range in price from \$2 to \$3.50, plus the war tax of ten percent. When the tickets arrive notice will be given in The Register. I sent in a request for more tickets, but I have no expectation of being able to get them."

## WANT M. E. DISTRICT LEADER AT ANAHEIM

(Special to the Register.) ANAHEIM, Dec. 22.—An effort is being made to make Anaheim the headquarters for the district superintendent of the Southern California conference of the Methodist church. Dr. H. I. Rasmus, now living at Long Beach, is now superintendent of the district, which is known as the San Diego district.

It is believed by local Methodists that Dr. Rasmus could be persuaded to move to Anaheim. If the plan to persuade Dr. Rasmus to move here works out, an effort will be made to have the name of the district changed to Anaheim district instead of San Diego.

## POSTOFFICE HEAD AT ANAHEIM HURT

(Special to the Register.) ANAHEIM, Dec. 22.—Fred Ahlborn, postmaster here, was injured today, when an automobile he was driving collided with one driven by H. J. Schulte of Orange. Ahlborn was taken to the local hospital. While the extent of his injuries has not been determined, it is not believed that they are serious.

The crash occurred at the corner of Third and Los Angeles streets at about 10 o'clock. Other cars at the intersection caused the drivers to become confused, and the collision resulted.

## THE SECOND-FOOT OF WATER DEFINED

"Second-foot," as defined by the United States Geological Survey, Department of the Interior, is an abbreviation for cubic foot per second and is the unit for measuring the rate of discharge of water flowing in a stream 1 foot wide and 1 foot deep at a rate of 1 foot per second. It is generally used as a fundamental unit in measurements of stream flow.

"Second-foot per square mile" is the average number of cubic feet of water flowing per second from each square mile of area drained, on the assumption that the run-off is distributed uniformly both as regards time and area.

An "acre-foot" is equivalent to 43,560 cubic feet and is the quantity required to cover an acre to a depth of 1 foot. The term is commonly used in connection with the storage of water for irrigation.

A flow of 1 second-foot equals 7.48 United States gallons a second, 448.8 gallons a minute, or 646,317 gallons a day. As a California "miner's inch" equals 0.157 gallon a second, there are 40 California miner's inches in 1 second-foot.

## HAMON DEATH SUSPECT TO SURRENDER, REPORT

ARDMORE, Okla., Dec. 22.—A thirty-two day search for Clara Smith Hamon, wanted on a charge of murder in connection with the death of Jake L. Hamon may end late today.

The woman was to surrender to Sheriff Buck Garrett at a city along the international boundary, near El Paso, James H. Mathers, member of the law firm of Coakley & Mathers, retained to defend Clara Smith, announced.

Tommy, a small Presbyterian, was being examined in the catechism by the visiting minister.

"What is meant by regeneration?" asked the divine.

"Why, it's being born again," replied the victim, with some maternal prompting.

"And wouldn't you like to be born again?"

No reply to this, even under parental pressure, until finally, in desperation, the truth came out: "I ain't taking no chances on being a girl!"—Judge.

Temple Theater — Wednesday — "The American Catholic in War and Reconstruction."

Home-made candies at home-made prices. Nougats, fudges, creams. Lion Candy Kitchen, 211 West 4th.

## MAN ACCUSES TWO OF WRONGFULLY CUTTING TREES FOR CHRISTMAS

The Christmas spirit has seemingly involved Gerald Bestian and Ines Marvin in unforeseen troubles.

According to a complaint sworn to at the district attorney's office today by Louise Bergeman, who lives near Garden Grove, Bestian and Marvin came to the property of Fred and Otto Bergeman and cut down a number of pine trees to use for Christmas.

The accused men are charged with a misdemeanor; to wit, malicious injury of freehold by cutting down, injuring and destroying timber.

## WOMAN IN BATTLE FOR OIL PROPERTY

One of the richest oil properties in Orange county, that known as the Emory lease, north of the Bastanchury ranch near Fullerton, is involved in a suit which it became known today had been filed in the Los Angeles county courts.

The suit was filed by Mrs. Francis Emory Robinson against her sister-in-law, Mrs. Katherine S. Emory. It is for the purpose of recovering \$1,500,000, which Mrs. Robinson claims as her share of the estate of her brother, the late Frank Whitney Emory, who died at Pasadena last August.

The circumstances connected with the case date back to the time when the estate, consisting of 1480 acres, was owned and operated by Charles G. Emory, father of the plaintiff. At that time the property was thought to have no other value than as an olive orchard. The father returned to New York, leaving his son, Frank Whitney Emory, to conduct the ranch, with a half interest, for his share.

Later, with the discovery of oil in the district, the son is said to have gone to New York and to have obtained from his father a deed for the remaining portion of the ranch. In doing this, however, the fact of the discovery of oil is alleged to have been concealed. By the qualifications said to exist in this deed, the father was to retain all of the revenue from half of the ranch during his lifetime. He died in New York in 1914.

Mabel Emory Tracy, another daughter of the father, Charles G. Emory, discovered that her brother had concealed the fact of the oil leases. She wrote another sister in Los Angeles, who is the plaintiff in the present case.

The plaintiff claims that at various times previous to his death, her brother had promised to give her a portion of the estate, evading the fulfillment of his promise on various pretexts. The death of the brother before the fulfillment of these promises has resulted in the suit brought by Mrs. Robinson against the estate.

## MANUFACTURERS IN CLOSED SHOP DRIVE

CHICAGO, Dec. 22.—Manufacturers of the nation today served notice on union labor that the intensive drive against the closed shop had started when William Butterworth issued a call for a convention of big employers of the country.

Butterworth is head of the Illinois Manufacturers' association, vice-president of the Chamber of Commerce of the United States and president of the national conference of manufacturers' association, comprised of employers in Colorado, Connecticut, Illinois, Indiana, Massachusetts, Michigan, Minnesota, New Hampshire, New York, Washington, West Virginia and Wisconsin. He conferred with President-elect Harding yesterday.

Attacks Brotherhood Butterworth, in an open letter today, attacked the plan of the railway brotherhoods, who, he said, demand the establishment of a national board of adjustment handling their own industrial affairs.

Butterworth said if the brotherhoods succeed in their plan it would influence all other industries.

Calls Big Employers Butterworth invited the following big employers of labor to be present at the conference:

Elbert H. Gary of the United States Steel corporation; Charles W. Schwab, president of the Bethlehem Steel corporation; Dwight W. Morrow of J. P. Morgan and company; F. A. Seibeling, Goodyear Tire and Rubber company, and Charles Piez, former head of the emergency fleet corporation.

It was indicated by Butterworth that the immigration problem is one of vexation.

## MYSTERY SURROUNDS AGED WOMAN'S HURTS

SAN FRANCISCO, Dec. 22.—Attired only in a night robe, Mrs. Ellen Adams, aged 75, was found early today lying in Bush street between Buchanan and Webster streets.

At the emergency hospital it was found she was suffering from a broken leg and a broken arm.

Police believe the aged woman, who was unable to explain her plight, wandered into the street while walking in her sleep and was struck by an automobile or that she fell from a window.

## HINDU LEASE CAUSES CANCELLATION SUIT

YUBA CITY, Dec. 22.—Declaring that V. H. Triplett of this city had sub-leased a tract of land to Genda Singh, a Hindu, after leasing the land from her, Mrs. Mary J. Kirk filed a suit in the Sutter County Superior Court making Triplett and Singh defendants, asking \$1000 damages and cost of suit and asking that the lease to Triplett be cancelled by the court and the land restored to her. Mrs. Kirk in her complaint avers that when she leased the land to Triplett he gave her a verbal promise that he would farm the land himself and another promise that he would not sublet the tract to any Oriental.

## 1000-ACRE POOL BY RANCHERS. LEASE PLAN

Ranchers in the Magnolia school district, northwest of Garden Grove, are to hold a meeting tonight for the purpose of considering a proposal to form a pool of 1000 acres for leasing for drilling for oil.

There are many people in the Magnolia district and a number of oil experts who have examined the territory who believe that there is oil underlying the Magnolia section. The success of boring at Huntington Beach gives encouragement to those who want to bore northwest of Garden Grove.

There have been a number of leasing propositions under consideration in the Magnolia district. It is proposed by some of the ranchers that a big acreage be gotten together so that a big company—one that will start soon and keep on drilling until the job is finished—can be interested. It has been suggested that the Doheny companies might be interested.

## PEACE HOPE LOOMS IN HOME RULE BILL

LONDON, Dec. 22.—All lines in the Irish conflict with Britain seemed to converge toward peace today.

Passage of the home rule bill to which King George was expected to give royal assent today, marked culmination of a long fight by Irish leaders. Although the bill was not what had been demanded, it was hoped the measure would bring peace.

The bill provides for two parliaments—north and south—with a connecting link in the shape of a council of forty to be selected evenly from the two parliaments.

Ireland must accept the measure within three and a half years or it becomes void.

Encouraging signs from the government were the announcement that "President" De Valera will not be arrested if he returns to Ireland, and announcement that General Tudor, commander of auxiliary police, had gone on indefinite leave.

"The American Catholic in War and Reconstruction" will be on the bill at the Temple Wednesday.

A wonderful picture at the Temple Wednesday shows the "American Catholic in War and Reconstruction."

## ROLPH SEEKING WAY TO AVOID BAY STRIKE

SAN FRANCISCO, Dec. 22.—With both sides marking time pending a study of legal conditions by Mayor Rolph surrounding the threatened San Francisco bay ferry strike, indications today were that there would be no crisis before the end of another week.

Mayor Rolph is to be given legal opinions as to the status of the strike with regard to the wage award of the railway labor board. When that point is determined, further conferences will be held between the men and the ferry companies. It was pointed out that the men have agreed not to strike without 24 hours' notice.

PILES CURED IN 6 TO 14 DAYS. Druggists refund money if PAGO OINTMENT fails to cure itching, blind, bleeding or protruding piles. Instantly relieves itching piles, and you can get restful sleep after first application. 60c.

## FARM EXCHANGE TO BE OPENED AT BUREAU'S OFFICE HERE

To Install Blackboard at S. A. Headquarters for Listing Purposes

**DIRECTORS TO ASSIST**  
Bulletins Will Be Issued Bi-Weekly from Various Centers

An exchange by means of which the farmers of Orange county will let each other know what they have to sell or what they desire is to be opened at the office of the Farm Bureau, Santa Ana, it was announced today.

A large blackboard will soon be erected at the Bureau office and upon this board the farmer may enter a list of his products, machinery or stock for sale. Another column will be devoted to wants.

This arrangement is the result of numerous requests made to the Farm Bureau office by members who desired to buy or sell. The list will be kept up-to-date and a bulletin will be issued bi-weekly to a Farm Bureau representative in each farm community. Offers to sell or buy may be entered through the local community representatives who will submit them to the central office of the Farm Bureau.

For the present, the directors will receive want lists in their respective communities. They are:

J. J. Dwyer, Anaheim; Dr. J. R. Schofield, Buena Park; H. R. Henry, San Juan Capistrano; W. T. Chapman, Route 3, Orange (El Modena); S. H. Bowman, Route 2, Anaheim (Cyprus); Dr. S. S. Twombly, Fullerton; Carl Nichols, Garden Grove; J. B. Cleghorn, Costa Mesa; W. L. York, La Habra; W. W. Perry, Route 1, Orange (Villa Park); I. L. Marchant, Tustin; J. A. Smiley, Route 3, Orange (West Orange); W. Dean Johnston, N. Main St., Santa Ana (Westminster); J. F. Quigley, Yorba Linda; W. M. Belding, Route 1, Santa Ana; H. B. Woodrugh, Costa Mesa; Murray Horne, Huntington Beach; D. Eymann Huff, Route 3, Orange.

## CARLOT SHIPMENT OF CELERY ARE INSPECTED

STOCKTON, Dec. 22.—Carlot shipments of celery from Delta section are now at their height and the yield and quality were never better. The shipping point inspection service, of the state department of agriculture, is receiving many orders for examination of cars, especially from Anaheim and Walnut Grove. Carlot inspection of celery, with a certificate of inspection is available to shippers and other interested parties upon request.

## WATSONVILLE APPLES REACH INTO MILLIONS

WATSONVILLE, Dec. 22.—According to present advices there will be a total of 2,500,000 boxes of apples shipped from the Watsonville section this season or approximately 300,000 boxes less than was shipped last year. There is in cold storage about 200,000 boxes, loose and packed, at Watsonville and about 400,000 boxes in other cities throughout the state, mostly in San Francisco and Los Angeles. In addition there is some stock in common storage.

## NURSERY STOCK NOW READY FOR PLANTING

SACRAMENTO, Dec. 22.—The work of inspecting nursery stock in California has commenced and shipments are coming in by mail and express although the majority of stock for inspection at this time is in the local nurseries. The various nurseries are busy with digging and generally speaking the stock is of good quality. A large part of the stock this season has been grown in new soil and should be entirely free from plant diseases.

## Santa Ana Firemen to Give Demonstration in City Hog-Raising

Santa Ana's firemen may not be engaged in the farming business right now, but they certainly do know how to fatten a hog.

They may have read some of the boy club essays on how to put on streaks of fat and streaks of lean. Most of them, however, grew up on farms, and they know a lot about plowing and about stacking hay.

Some weeks ago the firemen came into possession of two pigs. Just how they got those pigs need not be said. Those pigs were fed a variety of pork-producing foods. Every fireman made it a duty to see that those pigs were stuffed full of food three times a day and as much often as they would roll up to the trough.

Result: Real pork.

The time for slaughter is at hand. Those hogs are due to get the ax and the butcher knife. Willis K. Duffy, steward at the Elks' club, famous as a barbecue artist, will do the cooking, and on Christmas day everybody who calls on the firemen is going to be treated to a great big pork sandwich the likes of which has never before been served in this town. The firemen are going to have a big Christmas dinner all their own.

## AUSTRALIA IS SEEKING AN ENEMY OF CACTUS

Australia is seeking American insects to assist in eradicating the cactus, which has overrun many square miles of its arable lands. Through the co-operation of the United States department of agriculture it has engaged the services of an entomological expert, who will spend a year scouring the cactus regions of Arizona and northern Mexico in search of these insects, which will be shipped to Australia. There are several species which prey on cactus but are not harmful to other vegetation.

## FARM BUREAU HEADS ARE TO MEET SWING

Congressman-elect, Phil D. Swing of El Centro has been asked to meet the officials of the Orange County Farm Bureau that he may learn of Farm Bureau activities in this county and also what the county's agricultural needs are with respect to national legislation.

Swing will be in the county about the first week in February, at which time the legislative committee of the Farm Bureau will confer with him. He has also agreed to speak to the citrus growers at the La Habra Farm Center in the same week.

## GAMBLING SHARPS NABBED AT SHAFTER

SHAFTER, Dec. 22.—Fourteen Mexicans, several of whom are alleged professional gamblers from Bakersfield who make the rounds of Mexican work camps and fleece their countrymen, have been rounded up near Shafter by Deputy Sheriffs Dupes, Stapp, Taylor, Snell and Cochran and taken into Judge F. W. Bunnell's court at Bakersfield to answer to charges of gambling lodged against them.

The accused, who were cotton pickers on ranches in the vicinity, were camped along the railroad tracks in tents and were taken completely by surprise when the officers came upon them.

## THREE LOSE LIVES IN MOTOR ACCIDENT

EL DORADO, Kan., Dec. 22.—D. W. Shapfer of Tulsa, Okla., general superintendent of the Pure Oil company; C. C. Blue of Eldorado, superintendent of the Kansas division of the company, and Charles Algeo, Eldorado drilling contractor, were killed when their motor car ran off a bridge in a storm last night.

## DEMAND EVACUATION OF NEUTRAL GROUND

LONDON, Dec. 22.—The Armenian soviet has sent an ultimatum to Georgia, demanding evacuation of the neutral zone between the two countries, according to official information received here today. Georgia was said to have refused to comply.

## SUGAR BEET IS THREATENED BY CURLY TOP

Report to University Points Out Farm Problems of State

The sugar beet industry in the state, the factory investment of which probably represents a capital of about \$25,000,000, is threatened with total destruction, if means are not found to control the curly top disease and render production more secure.

This is declared in the annual report of H. J. Webber, director of the agricultural experiment station of the state university.

"The study of the cause of curly top and the spread by the leaf-hopper should be continued and extended. Studies should also be made on the beet army worm, the wire worm and the two nematode worms that injure beets," it is stated.

The vegetarian propensities of the wireworm, or the young of a certain species of beetle, have become so alarming that the Farm Bureau of Ventura county has urged the University of California to send its experts to ward off the attack on the lima beans and sugar beets grown in the southern part of the state.

This was revealed in the annual report of the director of the agricultural experiment station of the university.

The wireworm, it is stated, has a particular relish for peas, corn and beans, but will not overlook potatoes and other general field crops.

Value of Horses

A suggestion that the University of California agricultural experiment station undertake experiments to determine the economy of horse production in view of the shortage of distillate and gasoline is made by Prof. Webber in the annual report.

"Experiments to determine the economy of horse production in view of the shortage of distillate and gasoline would be timely and important."

Another problem which should be given attention, he states, is that of investigating the growth of fibre crops and the securing of fibres better than long staple cotton to use in automobile tire manufacture.

"Determination of means to control the spread of alkali is the most important problem facing California agriculture," says Webber's report.

"Many crop failures caused by obscure diseases, such as the cantaloupe disease that caused such heavy losses in the Tullock section last year, and the widespread injury of apricot trees following the harvest last year in Kings county, are probably to be ascribed to slow alkali poisoning."

"Destruction of thousands of calves on the farms of California where market milk production is the principal industry occurs annually because it does not pay to take the milk necessary to raise them to the point where they are satisfactory for sale," says Webber.

"The dairy farmer who sells his whole milk for market purposes or to condensed milk factories has no skim milk to feed the calves. It seems a great waste of energy to bring these calves into the world and then find no economic use for them. Is it not possible to find a substitute for milk that will give satisfactory results and cost less than the use of whole milk?"

## SHERIFF RETURNING WITH ACCUSED MAN

J. M. Armstrong, against whom a felony complaint is on file charging the passing of a worthless check, was today on his way back to Santa Ana from Riverside, where he was apprehended yesterday, in custody of Sheriff C. E. Jackson.

It is alleged that Armstrong gave the check, which is for \$109.20, to Y. Cerdia about two months ago. The check, drawn on the Bank of Orange, was returned to Cerdia with the notation "n.s.f."

## PIG CLUB FOLK WILL BE GIVEN AUTO TRIP

Boys, Girls from Tustin, Garden Grove to Visit Diamond Bar Ranch

The seventeen members of two pig clubs, eleven from the Tustin club and six from the Garden Grove club, will be given an excursion December 31 to the Diamond Bar hog ranch at Spadra, it was announced today.

Robert Ralston, assistant state leader of agricultural clubs, will be devoted to the outing. It is said over, so as to be able to accompany the pig club members to Spadra the following day. Assistant Farm Advisor J. R. Waters will also be in the party.

The excursion will be made by automobile. All day December 31 will be devoted to the outing. It is said that the herd of Duroc-Jerseys at the Diamond Bar ranch is among the finest in the West.

There are at Tustin eight boys and three girls who have been feeding a Duroc-Jersey barrow apiece as an agricultural club project. This club has been in progress since the middle of October and will probably continue until about February 1. The boys and girls are showing great interest in their contest and should turn out some real porkers.

Garden Grove pig club is composed of six wideawake boys who are each feeding a purebred Poland-China gilt.

This contest will end and pigs will be weighed in about March 1. If these pigs continue to gain as they have in the past month, some exceptional breeding stock will be ready for market.

## HUNT YULETIDE WET CARGO IN SEATTLE

SEATTLE, Dec. 22.—Prohibition enforcement officers were attempting to locate a "Christmas cargo" of several hundred cases of whiskey, believed to have been landed from a Canadian fishing schooner near here yesterday. The schooner was later captured by the Coast Guard cutter Scout and the crew detained.

Two members of the crew confessed, Prohibition Director Donald A. McDonald announced, to landing the whiskey at Golden Gardens, ten miles from Seattle. Previously, they are said to have declared uniforms men posing as officers overhauled the schooner and exacted \$1,000 and fifty cases of liquor as "hush money."

The shipment of liquor was the largest known to have been smuggled into Washington since the prohibitive, Director McDonald said.

## HUNDRED MILLION FOR STATE ROADS

WASHINGTON, Dec. 22.—Republican leaders of the House have agreed upon an appropriation of \$100,000,000 for state roads aid. It became known after an executive session of the House Roads Committee.

A bill introduced by Representative McArthur, Republican of Oregon, now before the Roads Committee, would make \$400,000,000 of federal funds available during the next four years, but it developed that the Republican Steering Committee has decided that in the interest of economy the appropriation should be limited to \$100,000,000 and should not cover more than a two-year period.

## GIANTS DENY NEED FOR ROGER HORNSBY

NEW YORK, Dec. 22.—"We have not purchased Rogers Hornsby and we are not overly anxious to acquire him now," Joseph O'Brien, secretary of the New York Giants said today in answer to a report that the St. Louis team had been sold to them.

"We made three bids for him last summer and offered a flattering price. We needed him badly then but we do not now," he said.

## LONDON 'BOBBIES' IN U. S. FOR BOUTS

NEW YORK, Dec. 22.—Three London "bobbies" were quartered today at the New York police club on Riverside drive getting ready to participate in the amateur boxing show of the International Sporting club next month.

The party consists of Inspector Arthur J. Spriggs of Scotland Yard, Constable Jack Stanley, 196 pound heavyweight champion of the London police force and Harry Mallin, the middleweight champion.

## YUBA WOMAN LEARNS OF PARENT'S DEATH

MARYSVILLE, (Yuba Co.), Dec. 22.—That her mother died during the World War, following her detention at a quarantine station in Poland, and that her father, who followed her mother to his native country at the close of the war, was killed by insured persons in Poland, is the news that Mrs. Ethel Meyers of this city has received through a letter from the old country.

Unaware that his wife was dead, the husband went overseas to accompany her back to America.

SHANNON OUTPOINTS WHITE. ST. LOUIS, Mo., Dec. 22.—Eddie Shannon, coast lightweight decisively outpointed Charlie White of Chicago in eight rounds here last night.

## PRINCE OF WALES WINS PRIZES IN COMPETITION WITH FARMERS

The Prince of Wales recently signified his advent as a Canadian farmer and ranchman by winning all around championship honors for Shropshire sheep, in the ram class, at Calgary's fall live stock show. He signs himself "Edward, Prince," and his 600 acre estate in southern Alberta is known as the "E. P. Ranch." The prince purchased it during his tour of Canada and some of his happiest hours were spent galloping across the Alberta prairies, aiding in the round-up of cattle and watching the cowboys and girls tame bucking bronchos and bulldog steers.

The "E. P." adjoins the "Bar U," owned by George Lane and famous for its Percherons, and not far distant is the ranch of the Earl of Minot. This is the cattle country of Alberta, and shortly after he bought his ranch the prince began stocking it with thoroughbred horses from the royal stud, short-horns from King George's farm, Shropshire sheep from

the Duke of Westminster's estate and hardy little ponies from the Devon moors.

As further proof of his intent to become a potent factor in Alberta ranching, the prince lost no time in exhibiting his newly arrived herd of Shropshire sheep at Calgary. Despite the fact that the sheep had just completed the long journey from England, one ram—a winner at roy-

al shows abroad—carried off the all round championship, and then sold for \$225, the top price of the show. Three animals from the prince's ranch were sold for \$563.

King George was known as the "Sailor Prince" and judging from his interest in ranching, the heir to the throne may win the sobriquet "Farmer Prince."

## SAYS SPIRIT OF CO-OPERATION WORLD-WIDE

"Almost the first question, asked by the farmer who is approached as a prospective member of the Farm Bureau is, 'Why should I join the Farm Bureau?' What can it do for me?" said H. B. Woodrugh, membership director for the Orange County Farm Bureau.

"The answer is simple enough," continued Woodrugh. "Because it is to your economic, social and educational interest to join with your fellow farmers in one of the greatest agricultural movements in California and the United States."

"Well," the farmer answers, 'but you have got to show me.' And I think we can do so."

"In the first place, there is much truth in the old adage that 'Together we stand; divided we fall.' Every group of people in the world that has had common problems to solve has found this to be true. Hence, your great financial organizations, your commercial bodies such as chambers of commerce, and the merchants' and manufacturers' associations, and perhaps greatest of all your labor organizations. These men and women have all realized the necessity for combined action; for concrete constructive principles upon which to build an organization which will endure and which will solve those problems peculiar to the particular group."

"Have the farmers any problems to solve? I think an answer is unnecessary. But how to solve them? In the past the farmer has been more or less of an isolated individual, living much to himself and facing the conditions which presented themselves to him, individually and as best he could. But the spirit of co-operation is spreading all over the world. The farmer finds that he is not an isolated individual, but a social unit, a part of the great machine of civilization. And a very important part he is—the most important part, I think we will all agree. His main interest, of course, is the marketing of his product after he has by much toil and serious effort wrung it from Mother Earth. He finds that when he goes to sell his product, he receives in return very much less than the amount which that same product brings in the retail market. That is one of the problems the Farm Bureau movement is solving right now through its well organized marketing exchanges."

"Then, there are the problems of better seed, better livestock, improved farm machinery, available and cheaper power, good roads, better educational facilities in rural districts, and the establishment of a standard of living which will be comparable to that of the average city dweller. The Farm Bureau is developing departments which will have these as their particular problems to solve. But this requires co-operation and financial backing from the farmers themselves. You can't

## SUGAR BEET MEN TO FORM ASSOCIATION

Sugar beet growers of the Santa Ana district are to meet tonight at 7:30 o'clock at the city hall for the purpose of forming a local association.

This meeting was called by the organization committee of the California Beet Growers' association, a state organization. Local associations are now being formed in various best growing sections of the state.

It is believed that most of the growers of beets in this section of the county will enter the association.

## PENNIES SAVE LIFE OF SAILOR ROBBER

CHICAGO, Dec. 22.—Examination of a wound sustained by a sailor bandit, who with three men in army uniforms fought a gun battle with a private detective in front of the home of Cyrus S. McCormick, head of the International Harvester Company, proved that his pocketbook containing 8 pennies saved his life.

The force of the bullet was impeded when it struck the pennies and lodged in his abdomen. It was easily removed by a police surgeon with his fingers.

"It was my first job," said the wounded sailor, who gave his name as John Johnson. "I wanted a little Christmas spending money. I met the three soldiers and asked them to go along on a little stick-up party. I never saw them before."

## PLAN UTILITIES COMMITTEE TO TAKE UP FARM PROBLEMS AS TO RATES

Farm Bureau Head Is Authorized to Name Board in County

WILL ASSEMBLE DATA

Qualified Counsel Will Be Employed to Aid in Big Work

The directors of the Orange County Farm Bureau have authorized President W. M. Belding of Tustin to select a permanent committee to act for the organization in regard to public utilities questions, particularly as these affect rural users of such utilities, it was announced today.

In this connection it was stated that a utilities department of the State Federation of Farm Bureaus is being organized now to begin immediate consideration of some of the rate problems confronting the farmers of California.

The plans as developed under the direction of President Walker, of the state federation, contemplates the immediate employment of qualified counsel to take charge of assembling and analyzing data from all available sources. This data is at present available or will be furnished to the department for analysis. Counsel for the work also is available.

To Organize Counties.

There remains, however, the organizing of the counties for financing the department, and other details. It is intended that this department shall function continually and shall concern itself with all utilities problems coming into the Farm Bureau from anywhere in the state.

The temporary committee that represented Orange County Farm Bureau at the recent Edison power rate hearings in Los Angeles consisted of Sidney Saubey of Tustin and W. L. York of La Habra.

The Orange County Farm Bureau was declared to have been the only organization from this county to represent the consumer of power in Orange county to protest the permanent basis rates asked by the Southern California Edison company. The efforts of this committee will no doubt have some bearing on the decision of the Railroad Commission in January.

## MADERA HAS BIG SHIPMENTS.

MADERA, Dec. 22.—The season of 1920 witnessed the largest shipment of green grapes that has ever left Madera. A total of 159 cars of wine and table grape varieties together with seventy-two cars of raisins, thirty-six cars of dried fruits, thirty-seven cars of peaches, fifteen of casha melons, and seven cars of olives was the season's total.

—To those who appreciate automotive perfection, a chassis will be introduced embodying such constructive principles as were heretofore considered possible only in experimental and laboratory work.

**SAYS U. S. CITIZENS OUGHT TO BE OWNERS OF CALIFORNIA LAND**

"American citizens ought to be the land owners of California," declared Edward Mead, professor of rural institutions in the state university and chairman of the State Land Settlement board, in the annual report of the College of Agriculture. He states:

"Land tenantry is rapidly increasing despite the fact that experience has shown that for the best development of the land and the community, ownership management is the only system that insures progress.

"Provision for the farm laborer is a social and economic innovation of the State Land Settlement act. All the work in the Durham settlement is being done by American citizens. America must create conditions which will attract and retain on farms American farm laborers who are intelligent, aspiring, and ambitious, and which will help to make their children the farm owners of the future."

**MANY TYPES OF AIR CRAFT TO BE SHOWN**

Aviation is safer than any other means of locomotion, according to M. Flaminio, of Paris, French minister of aviation, whose plans for next year include an extension program, the intention of which is to advance the position of France insofar as civilian flying is concerned.

The greatest underlying thought in the staging of the National Air Tournament at Long Beach, December 25, 26 and 27, is to demonstrate the position of the lighter-than-air craft in the business of commercial transportation, both passenger and freight.

Some idea of the stability of air transportation as a means of conveyance may be had from consideration of the progress made.

The established air routes of France now total about 2500 miles. Air craft have demonstrated their practicability and safety to such an extent that during the coming year these routes will be increased tenfold, with new interior lines in operation, even connecting France with its African colonies, with a daily aerial service. The pilots, flying machines and hangars for this service are now ready.

In addition to the entry in the Long Beach National Winter Air tournament by the United States government of the various types of army and navy airplanes and dirigibles, now used successfully in the practical operations of the army and navy, there will be entered types of planes now used by the government postal service. Also, there will be passenger carrying planes with a capacity of upward of ten passengers, and the very latest types of freight carrying planes. Within the enclosure of the Daugherty municipal aviation field they will be open to inspection by all who attend. Their mechanism and construction may be viewed there, and their practicability and safety as a means of transportation can be demonstrated in such a way as never could be had through anything that can be written or said about it.

It is not too much to predict that the construction of a municipal aviation field by Long Beach may mark that city as among the first to establish itself as a terminus in the matter of aerial transportation.

Tickets for the Long Beach National Winter Air tournament are being sold by members of the Santa Ana Rotary club, and also at the office of the Crown Stage line.

"Join your county, your state and your national Farm Bureau and be assured that in the strength of these great organizations lies your own salvation and hope. The membership campaign will start January 12."

**TOWN WILL DANCE IN SPITE OF PROTESTS**

MILWAUKEE, Dec. 22.—Elders or no elders, the town of Milton, Wis., will have its New Year's dance, the second in 35 years. Anxiety on this point was set at rest by Arthur M. Mills, former editor of the Milton college paper, who resigned after publication of a review of the first town dance, which was protested by President W. C. Daland of the college. The dance was conducted by the Badger club, and an entertainment given by the Girls' Literary society. Three ballet dancers appeared.

"I haven't any jurisdiction over the Badger club," said President Daland. "It is not a college club, though several of the students are members. I have told the students about the stand of the college on dancing and I shall expect them to abide by it."

The town of Milton is the home of a community of Seventh Day Adventists, with whose views the college coincided, and for years it has boasted that it was free from the haunts of idleness and dissipation.

**TENNESSEE SOLON IS FREED OF CHARGE**

WASHINGTON, Dec. 22.—On the ground of insufficient evidence, the government nolle prossed the charge of driving an automobile while intoxicated which was placed against Representative Garrett, Tennessee, after Garrett's car had struck and knocked down a young woman here several weeks ago.

**FIND RICH GOLD VEIN IN SIXTY FOOT HOLE**

WINNIPEG, Man., Dec. 22.—A rich gold vein at a depth of 60 feet has been struck in No. 2 shaft of the Washman mine near Dryden, Ont., according to reports received here. A quartz vein seven feet wide has been found and the gold ore averages more than \$200 to the ton.

**INVITE BANKERS AND MERCHANTS TO MEETING**

"The Dairyman's Problems are the City Man's Problems" will be the topic of Sam Greene, secretary-manager of the California Dairy Council at a conference of dairymen and business men to be held at the city hall on the evening of January 4.

The dairy department of the Farm Bureau is calling this meeting and is inviting the county's bankers and business men interested in the development of the dairy industry to be present.

The Farm Bureau sees a need for a better understanding of the milk business on the part of the city man, as the production of clean, pure milk is fundamental to a city's growth and health, it was stated.

Other speakers of the evening will be C. F. Hoyt, supervisor of dairy inspection, and W. E. Thomson, professor of animal husbandry, University Farm, Davis.

**URGES POISON WEED STUDY BY STOCKMEN**

There is an increasing need for more general information regarding weeds, especially the class known as "poison weeds," says G. H. Hecke, director of the California Department of Agriculture.

Hecke says there is a great need for legislation to cover the weed situation in California and commensurately for the means to enforce such legislation. A study of the more important wild poison plants of California should be taught in all rural and agricultural schools.

The following case of stock poisoning has been reported in full by County Horticultural Commissioner Hickman, of Monterey county, who has conducted a consistent educational campaign for years in an effort to reduce such losses to a minimum and a display of poison plants is on exhibition in his Aromas office for the benefit of farmers and stockmen.

"About six weeks ago a herd of cattle from San Ardo was placed to pasture on the slough lake section near Graves, north of Salinas. Three animals died shortly afterward but death ceased upon removal of the cattle from the slough part of the pasture.

"Later another herd of cattle was permitted to pasture in a neighboring slough and four of this band died, deaths ceased on removal from the slough. The horticultural commissioner was called upon to investigate the case and found evidence of poisoning by one of the poison hemlocks. Many dried stalk fragments of this plant were found but naturally the winter or fall sprouts were not to be found, having been eaten by the stock; and these green sprouts appear to be particularly poisonous as well as attractive to stock at this season of the year when other green feed is absent.

"Several hogs died at the same time apparently from the same source.

"I am informed that stock is said to have died in previous seasons in this section from eating cow parsnip, but I found no evidence of this plant's presence."

Commissioner Hickman issues the following admonition:

"Would it not be well for all stockmen who move stock to pasture in these sections to become acquainted with these plants and have them removed from prospective pastures before use."

Diner Out (to waiter)—Bring me a highball.

Waiter—Why, sir, didn't you know the country was dry?

Diner Out (craftily)—Ah, but we're in the city now.—Stanford Chapparral.

**UP-STATE NEWS**

**SAN RAFAEL**—Authorization of the State Superintendent of Banks for a bank with a capital of \$500,000, to be incorporated and to transact business in San Rafael, has been received, according to one of the four men who will own a controlling interest in the institution.

To date \$225,000 of stock has been subscribed, he said. J. K. Armsby, millionaire packer, J. C. Haas, Milton Esberg and H. S. Foote will own the controlling interest.

If you see the Bayer Cross on tablets, you can take them without fear for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

Union High school to bring out the views of the members willing to form a pool for the sale of their potatoes. Twenty of the growers attending reported having still on hand \$200 sacks, half of which they were willing to pool for immediate sale.

**NAPA (Napa Co.)**—At 85 years of age, Dr. M. B. Pond, one of Napa's pioneers, unaided, felled a huge redwood tree standing in his yard.

The Doctor planned to have the tree fall without crushing electric power lines, and to do this he was obliged to climb the tree and cut a number of large branches.

Dr. Pond himself planted the seed of the tree in 1869, having obtained

it from Calaveras County, it being the same species of the trees as those in the famous Calaveras grove.

**WILLOWS**—A movement is on foot here, and said to be meeting with favor, to consolidate five school districts in the immediate vicinity of Willows into one big district, with school buildings in Willows.

**GRASS VALLEY, (Nevada Co.)**—The first legal steps in the direction of organizing an irrigation district to include irrigable lands in Nevada, Yuba and Sutter counties was taken here late Saturday when a largely attended meeting of landowners voted unanimously to proceed with

the project.

Eighty signed the necessary petition to be presented to the Board of Supervisors.

**SACRAMENTO**—The Sheriff of Sonoma County is not entitled to mileage fees in serving papers if he uses an automobile furnished him, without cost to himself, by the county.

This is according to a ruling made Saturday by Attorney General U. S. Webb to G. W. Hoyle, District Attorney of Sonoma county.

Webb also rules that the Sheriff is not entitled to railroad fares in addition to mileage, and that he cannot hire a taxi, charge the bill to

the county and keep the mileage himself.

It is explained by Webb the mileage is allowed to meet such expenses and that to allow them would be double charging the county.

**REDDING (Shasta Co.)**—Directors of the Anderson-Cottonwood Irrigation District, Saturday rejected all bids for construction work that called for expenditure of approximately \$100,000. This action was taken because the bids were not accompanied by certified checks and because all of them were on the cost-plus basis. The district will go ahead with the work under its own supervision.

## New Court For Shoppers

CHICAGO—A group of Chicago merchants have taken the law into their own hands. They have their own court and their own judge. It's the Shoppers' Court, formed by the Republic Building Merchants' Association. This skyscraper contains 120 retail shops. The Shoppers' Court is a new method of administering justice to shoppers not satisfied with purchases or treatment in any one of the shops in the building. Picture shows Miss Rosalie Sanden (left) entering complaint before "Judge" Walter C. Foster (right) of the "Shoppers' Court."

## SEEK GASOLINE TAX TO RAISE ROAD MONEY

OCEANSIDE, Dec. 22.—Various phases of the proposition of seeking legislation providing for the levy and collection of a tax on the sale of gasoline used by automobiles, trucks, tractors and other vehicles using this agency of power, were considered at a meeting of the directors of the chamber of commerce of northern San Diego county, in connection with the other business of the monthly session of the board.

State Senator E. P. Sample and Assemblyman R. W. Colburn were guests of honor at the chamber, while the gathering included a number of well known men from different sections of the county, outside the membership of the directorate. Senator Sample and Assemblyman Colburn said they would be very glad to introduce a bill providing for a gasoline tax if it should be shown to be the wish of commercial and other organizations of the county.

**Seeks Expressions**  
Chairman Tom Hurley of the committee said that while the committee was of the opinion that the sentiment over the tax favored the tax, the money to be used for road construction purposes, it would be pleased to obtain the formal expression of the various organizations and forward them to legislators.

It was voted by the directors that the committee make the matter up with the different organizations in time for action in framing a bill before the recess of the legislature. Senator Sample, in his opening remarks, called attention to the opposition which might be expected. He pointed out the point of the legislature being empowered to adopt such a law without submission to the people, but the question of constitutionality might be raised, and if so would have to be wrestled with. On the basis of the figures used by the oil companies as to the use of gasoline the revenue from the collection of 2 cents a gallon would amount to \$12,000,000 a year.

Mr. Sample considered the question of the percentage of these funds which could be returned to the different counties and the chances that the state highway commission would want a share of the gasoline tax money for state highways. He called attention to the proposed federal tax on gasoline and horsepower on automobiles.

**Agrees With Sample**  
Assemblyman Colburn spoke along the same lines as Senator Sample, bringing out the point that the commercial auto trucks, which were responsible for so much of the damage to the highways, and which were operated in direct competition with the railways, should be made to pay a generous tax.

As that was the first opportunity he had had of meeting so many of the taxpayers of the county since his election to the office of assemblyman, Mr. Colburn said he wished to express his appreciation of the support given him and to say that he would do his best to fill the position with credit.

**ARE FIGHTING RODENTS.**  
MADERA, Dec. 22.—Advices received from County Horticultural Commissioner George Marchbank, state that rodent control work is progressing in the district around Madera and every one seems to be putting forth his best efforts. Some of the larger land holders are doing some very good and much needed work which will greatly help the adjoining landowners. Only one inspector and crew is working at the present time, but they are doing good work.

**TRADING WITHOUT CASH.**  
Into the general store of a small village came a diminutive boy, who laid upon the counter a single egg and said:

"Please, my mother says will you give her a needle for this egg?" The storekeeper smiled. "Why," he said, "you can get a whole packet of needles for an egg." "No, sir," continued the small boy, "my mother don't want a whole packet. She says, please give me the change in cheese."—From the Pittsburgh Chronicle-Telegraph.

Beautiful hand painted satin boxes and work baskets packed to order at the Dragon.

## TURKEY SUPPLY IS AMPLE FOR CHRISTMAS

Santa Claus will not be hindered by lack of turkeys with which to spread good cheer in Santa Ana this Christmas, according to merchants here today.

Merchants said they had an adequate supply of the famous and delectable bird to fill all demands although one shopkeeper declared his supply probably would be sold out by tomorrow.

The demand seems even greater than it was at Thanksgiving. One meat market has received more than twice as many orders as it did then. Turkeys are now selling at 65 cents a pound, dressed, which is practically the same price that prevailed at Thanksgiving time.

The commodities with which to provide a suitable environment for Sir Turkey when he reigns supreme at the Christmas feast, such as cranberries, mince-meat and all the other "fixins" are at the same price levels as at Thanksgiving.

If Santa should run short of turkeys during his rounds here this week, he will be able to distribute pork as a substitute. Pork is 20 cents a pound cheaper than it was at Thanksgiving, the best cuts now costing around 35 cents a pound. Pork runs turkey a very close second in the popularity race, it was stated.

## THANKS TENDERED FOR NURSERY AID

A statement thanking the Day Nursery's numerous friends for their kindness in giving assistance in the way of clothing and other needed articles was issued today.

Among the donations were sums of money in various amounts, beds, chairs, stoves, wood, toys, all kinds of cooked food, vegetables, apples, oranges, canned fruit, jellies, ice cream and milk.

The list of those who aided the Day Nursery during September, October and November, and who were given thanks by the nursery today, follows:

Mrs. Stockslager, Mrs. John McFadden, Mrs. J. C. Parks, Mrs. R. Y. Williams, Mrs. Frank Remsburg, Mrs. Karp, James Antoine, Mrs. Bruner, W. S. Lee, Mrs. Clark, Mrs. Lee Bryan, Mrs. E. D. White, Mrs. Charles Spicer, Episcopal church, Mrs. Arnold Peck, the Dragon, Mrs. G. S. Davis, Mrs. Borchard, Mrs. Arthur Lyon, Mrs. George Briggs, Mrs. Marie Harris, Mrs. Whitted, Katherine Walker, Mrs. Russell Collins, Taylor's cannery, Mrs. F. A. Tedford, Mrs. Nau, Mrs. Osborne, Mrs. Sam Ferguson, Mrs. J. W. McCormac, Miss Safley, Mrs. W. D. Baker, Mrs. Arthur Lutz, Mrs. Phoebe Walker, Mrs. Cood Adams, Mrs. Grace Bishop, Daughters of Veterans, Mrs. George Howley, Mrs. Bain, Baker's bakery, Gerrard Bros., Miss O'Brien, Mrs. Stephen Ross, First Christian church, Miss Reed, Mrs. Murphy, Mrs. Sprague, Mrs. James, Rainbow Circle of the Christian church, Miss Ida Nae, Mrs. Roy Chandler, Rev. J. A. Stevenson, Mr. and Mrs. Clyde Bishop, Mrs. H. Skiles, Mr. Asa Vandermast, Spurgeon school kindergarten, Congregational church, Campfire Girls, Niskey Hardware company, Hill & Son Hardware company, Santa Ana Steam, Model and American laundries, Excelsior Dairy, Raitt's Dairy, Mr. Gregg, George McPhee, ladies of Evangelical church, Shriners' picnic, Turner Shoe company, Rotary club, Sons of Veterans, Mary Roland, Mrs. Charles Riggs.

"Miss Schumucker, a kindergarten teacher, has visited us often and delighted the children with her story telling," the statement concluded.

**ENGINEER DECLARES MILLIONS WASTED IN BURNING OUT STUMPS**  
PORTLAND, Ore., Dec. 22.—The solution of the logged off land problem which is bothering the states of the northwest can be made to pay its own expenses as well as yield a substantial return if the plan advocated by F. L. Evans, Portland mining engineer, is followed.

The better way, according to Evans is to salvage the stumps by reclaiming the valuable materials it contains. He estimated that ten cubic feet of stumps will yield 200 gallons of turpentine, valued at \$1.94 a gallon, 600 pounds of tar, valued at \$14 a barrel; one ton charcoal, worth \$22 a ton, and numerous other materials in lesser quantities, such as creosote, wood alcohol and formaldehyde. He submitted these figures to show that burning of stumps is little short of criminal.

Evans contends, to reclaim these materials it would be necessary to erect plants for the chemical extraction of the valuables, but that expense would be justified on a very large scale by the possibilities of the traffic.

"Since the timber-owners continue to leave the forests without doing anything to replace them," Evans declared, "and leave the market glutted with a great acreage of comparatively useless land, it seems that the state should take some steps to reclaim the stumps and put the land in use."

"Land from which the stumps have been burned is useless for cultivation as long as the turpentine and other products of the stumps remain in the ground. The blasting of stumps and consequent chemical extraction of their ingredients would leave the land ready for cultivation," he said.

**SO UNNECESSARY**  
"Why don't you teach that dog to do some tricks?"

"I have tried," replied the man who lacks energy. "The dog won't learn." "Not enough intelligence?" "Too much. I can see by the expression of his face that the dog does not see any more sense in the tricks than I do."

## RUMORS OF ANOTHER STANDARD GUSHER AT HUNTINGTON 'NAILED'

Rumors current in Huntington Beach last night that the Standard Oil company had brought in another gusher were denied today by company officials. It is stated, however, that the Standard's Well No. 3 would probably be brought in within two or three days.

Company officials state that the only gusher brought in in the Huntington Beach field up to this time is the No. 1 well at Bolsa Chica. Rumors of other gushers were denied by the Standard officials, who stated that the company now has six rigs up or in the course of construction at Huntington Beach.

Real estate activity at the beach town has increased greatly. Values have gone up and the demand for close in lots is said to be far greater than at any time previous.

## BLAMES FILIPINOS FOR MANILA RIOTS

HONOLULU, T. H., Dec. 22.—Charges that the recent riots at Manila in which eleven persons, including four Americans, were killed, were the result of an organized conspiracy of native Filipinos, were contained in the formal complaint against 77 persons filed yesterday, according to advices reaching here from Manila today.

The complaint accused 77 men with murder and sedition.

The trial has been announced for the middle of January. The complaint charged that the alleged conspirators marched in military formation against the police and they launched their attacks from strategic positions which showed that a conspiracy had been formulated in advance.

Advices here were to the effect that it was not a racial riot but was due to ill feeling between factions.

**PREPAREDNESS.**  
He—(to his lady love)—Gracious! What's that clicking sound—woodpeckers?  
She—No, dearest. It's the machine taking moving pictures of your proposal to me, in case I have to sue you for breach of promise!

The New York State College of Forestry at Syracuse, recognizing the critical situation of the paper industry and the growing shortage of raw materials, has announced the inauguration of a four years' course in paper and pulp making.

## STATE AIDE OF REALTY CHIEF S. A. VISITOR

Alfred Dalton, representing Ray L. Riley, state realty commissioner, was in Santa Ana today, calling on the realty men and brokers.

Dalton has covered the entire state during the past twelve months in the interests of the department for the purpose of acquainting agents with the real estate law, hearing complaints of brokers and adjusting differences between brokers and clients. He also has been assisting in organizing realty boards in communities where they do not exist.

Riley says it is Commissioner Riley's desire to have the realty men feel that the office is in direct touch with them and will render them all assistance possible to raise the profession to a higher plane and attempt to make it the equal of any other.

Many amendments have been suggested to the real estate law, some of them by the recent convention held in Los Angeles, which it is expected the next legislature will pass upon and which will improve the existing law. It is thought that agents will be required hereafter to give a bond. The new license applications for the coming year are now being sent out from the office.

I am now covering the southern portion of the state and when I conclude, Mr. Riley will be able to say that every town, hamlet and village in the state has been visited by his representative," Dalton said.

Dalton predicts a busy year for the realty men all over the state, as a great exodus of Easterners is about to take place and there will be a big demand for all kinds of fruit, vineyard, alfalfa, orange, and other lands.

**THE CATCH.**  
A man remarked that he came from a very large family.

"How many are there of you?" he was asked.

"Well, there were ten of us boys," he said, "and each of us had a sister."

"Good gracious!" exclaimed the other. "Then there were twenty of you?"

"No," said the boastful man, "eleven."

**SHOWED DESERT STYLE.**  
Bert (passionately)—Life to me was a desert until I met you!

Doreen (coldly)—Is that why you dance like a camel?

## MONOLITH CEMENT PLANT WILL CLOSE

BAKERSFIELD, Dec. 22 — The Monolith cement plant, located near Tehachapi, fifty miles east of Bakersfield, and employing more than 100 men, will close down today, according to advices from Tehachapi. It is believed the shutdown will be only temporarily.

The plant, which furnished the cement for the Los Angeles Aqueduct, has been running under private ownership since last August, employing at times as many as 200 men.

## SACRAMENTO LAGGING ASSERTS REALTY MAN

SACRAMENTO, Dec. 22.—Lee Flaven, sales manager for a Sacramento real estate firm, in a statement here, declared building is lagging in Sacramento as compared to other cities of California. Local banking interests are responsible for the condition, he said. Flaven, who attended the convention of the California Real Estate association in Los Angeles, said many California cities are preparing for a "sure influx of Eastern people, who are going to come here in larger numbers than ever before."

## MAY OPEN FORESTS TO TOURIST CROWDS

THREE RIVERS, Dec. 22.—According to Colonel John R. White, superintendent of Sequoia and General Grant National forests, Giant Forest in Sequoia will be open to tourists and motorists all winter, except during such periods when snow packs all trails. Middle Ford road will remain open at all times possible. Arrangements can be made with the Kings River Parks company to care for horses and a winter camp at Hospital Rock. It is hoped to begin the new Middle Ford road in the spring.

## VALUABLE POINTERS GIVEN DAIRYMEN

Prof. E. C. Voorhies, dairy specialist from the State College of Agriculture, Berkeley, spoke to about fifty dairymen at Garden Grove Thursday evening on the subject of feeding the dairy cow for profit. Professor Voorhies said that in winter the big difficulty confronting the dairymen is green feed. Silage is recognized as the standard winter ration for most dairies. The speaker maintained that Indian corn, being the standard silage crop, is almost a necessity. The average dairymen figures amount of concentrate on milk production, but Professor Voorhies explained why ration of concentrates should be weighed out according to butterfat, seven pounds grain to one of butterfat or one pound grain to five of milk. The old-time dairymen always followed the rule of stop feeding the cow when turning her dry, but Professor Voorhies brought out the importance of keeping a dry cow on a gaining ration until she freshens.

C. V. Castle of United States department of agriculture, who has charge of cow testing in six western states, gave an interesting talk on what other sections in this and other states are really doing along the line of cow testing. The speaker gave some advice for the dairymen in this country. The progressive dairymen that are now having their cows tested were instructed and advised to keep records so estimates on feeding each cow every month can be figured. By testing and by figuring costs, Castle said, dairymen may figure out profit or loss on each cow for any given month.

See the wonderful picture, "The American Catholic in War and Reconstruction" at the Temple Theater Wednesday.

## SHIPS ON BARGAIN COUNTER POSSIBLE

WASHINGTON, Dec. 22 — Sharp reduction at an early date in the price of government-owned merchant ships to facilitate their transition to private control was said to be under consideration by the Shipping Board. Under the new shipping act a mandate was conferred upon the board by Congress to turn the merchant fleet over to private ownership, but board officials said this could not be done at the existing scale of prices for government tonnage.

## JAP ENVOY CALLS WAR TALK GOSSIP

SACRAMENTO, Dec. 22.—Talk of war between Japan and America as an outgrowth of California's anti-alien legislation which prohibits Japanese and other alien ineligible to citizenship from owning or leasing agricultural lands in the state, is characterized as "idle gossip" by K. Kiyose, a member of the Japanese Diet of Tokyo, who visited the governor's office.

Kiyose is in California gathering information concerning the reasons why the state adopted the amendments to the alien land law at the November election. "Japan would not object to America excluding her nationals from the states," said Kiyose, "if America would only grant to the Japanese now in this country equal rights with American citizens."

## 12 MOUNTAIN LIONS KILLED IN NOVEMBER

SACRAMENTO, Dec. 22.—Twelve mountain lions were killed in five counties in California during November, on which \$300 was paid in bounties, according to reports received at the office of State Controller John S. Chambers. Mendocino county reported 2, Mono 1, Glenn 1, Santa Barbara 2 and Tulare 6.

## EXPECT CLASHES IN SESSION OF LEGISLATURE

SACRAMENTO, Dec. 22 — Measures that were storm centers in the 1919 California legislature, including bills affecting community property, prohibition enforcement, governmental efficiency and economy, labor and irrigation, may bring contests in the session opening January 3.

Three bills, purporting to outline a complete program for placing a wife on equality with a husband in the ownership and disposition of community property, were passed during the closing hours of the last session. Two of these failed to get the approval of Governor W. D. Stephens and the remaining measure was defeated at the general election last month by a vote of 524,133 to 246,875.

Another Harris Bill  
Senator M. B. Harris, Fresno, who introduced the prohibition enforcement bill which was voted down, 465,537 to 400,475 at the November election after it had passed the last legislature, has announced that he intends to introduce a similar measure at the coming session.

The governmental efficiency and economy program, providing for consolidation of state commissions and agencies, failed of adoption in the 1919 legislature, the only action taken along this line being passage of a bill creating a state department of agriculture.

Action taken by the legislature two years ago was characterized as "a bitter disappointment," by Paul Scharrenberg, legislative representative of the California Federation of Labor. The anti-injunction bill used by labor was lost and a criminal syndicalism bill, making membership in an organization which advocates sabotage and methods of terrorism to affect political or industrial change a felony was passed after labor had unsuccessfully attempted to amend it to exempt specifically from its provisions boycotts and strikes by unions.

Would Limit Fees  
A Sunday closing bill, defeated after a lively fight, was another bill endorsed by organized labor. A losing fight was made by labor for a measure limiting the fees that private employment agencies may charge those seeking work.

On the other hand the unions blocked a strong effort to amend the woman's eight hour day law. This amendment, its proponents said, was designed to remove a burden from laundry owners.

A bill providing for organization of irrigation districts by majority vote of the electors instead of two-thirds as required under the 1915 state irrigation act was passed after a hot contest last session, but the California supreme court on August 3, 1920, declared the law unconstitutional, thus leaving only the Wright irrigation law in effect. The clause in the act to which the supreme court objected exempted from its operation, lands lying within counties having charters. There are only two such counties in the State, Los Angeles and San Bernardino. As 14 irrigation districts were affected by the supreme court decision, it is thought likely that a new irrigation bill along similar lines will be placed before the legislature.

Gambling Bill Dies  
A movement led by Assemblyman Cummings of Ferndale to have passed a bill applying proceedings similar to those of the Red Light Abatement act to buildings in which illegal gambling is found "died in committee" at the end of the last session. It had met with determined opposition.

It is considered probable that another effort will be made to obtain further recognition for chiropractors. A bill designed to effect this was lost in the legislature after a bitter controversy. It was brought before the people at the last general election and defeated 402,410 to 390,240.

## CHILD IS KILLED BY BROTHER'S AUTO

FRESNO, Dec. 22.—Crushed beneath the wheels of a truck driven by her brother, Ethel Helm, 7 years old, died as she was being taken here for medical attention. The accident occurred about 2 o'clock in the afternoon. The brother was driving the truck out of the family yard when the little girl, unknown to him, ran from behind a clump of trees and attempted to jump upon the running board, but fell beneath.

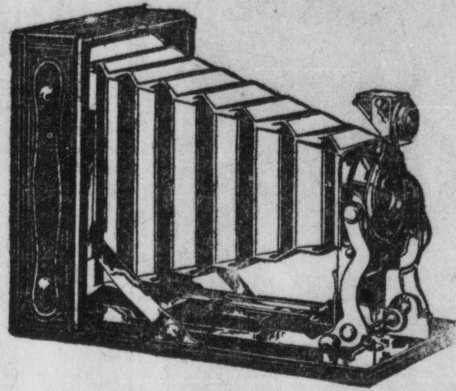

When you ride in Safety and Comfort remember to call No. 925 for one of our clean, handsome, modern MOTOR CARS.

## Six Barrels of Potatoes for 99c.

On September 14, Mrs. Sarah S. Hancock, of Bridgeton, New Jersey, sold six barrels of No. 2 potatoes through a New York commission house for \$1.50 a barrel—a total of \$9.00. After deducting \$2.10 for barrels, \$3.51 for freight, \$1.50 for cartage and \$.90 for commission, the firm sent Mrs. Hancock what was left—99c.

Think of it! Six full barrels of food for only 99 cents!

The quick relief for such cases is direct cooperative marketing of vegetables, fruit, grain and livestock by the full carload.

Michigan potato growers saved \$700,000.00 last year by letting a trained sales manager market their crop cooperatively. There is no longer any question as to whether it will work—fourteen thousand cooperative associations are working in the United States today.

There is a big, new force in the United States which advocates cooperation. It is the American Farm Bureau Federation. It also supports all other sound relief measures for farmers, such as cost accounting, knowledge of world markets and legis-

lative reforms. You can help in the fight for these measures by becoming a member of your County Farm Bureau.

You can help, too, by reading that great national farm-service weekly, THE COUNTRY GENTLEMAN. You will find it always in the thick of the farmer's fight—never neutral and never dull. Fifty-two big, inspiring issues, crammed with helpfulness, entertainment, hope and courage, will be delivered in your post-box for just \$1.00 the year. Yes, your check is good.

## SIX THOUSAND SIGNATURES ARE NEEDED TO COMPLETE PETITION FOR COUNTY CEMETERY DISTRICT

With 6,000 names on the cemetery district petition, the committee that is directing the gathering of signatures is now bending every effort to secure 6,000 more names before January 1.

"It will take much hard work and much interest in order to complete the petition by the first of January," said J. C. Wallace, head of the committee, today. "The only way it can be done is for people who have not signed to make it their personal duty to see that their names are on the petitions."

"Are the people of Orange county going to let the year 1921 go by, as they have let 1920 and other preceding years go by, without putting the graves of pioneers in presentable condition?"

"Are we going to sit still and let weeds and gophers have full sway in our cemeteries?"

"There are hundreds and thousands of people who say no, but unless they say so emphatically enough to get their friends and neighbors to sign petitions with them they will be neglecting the opportunity to do the thing that we want to do."

"The law requires that the petition to form a cemetery district have the signatures of fifty per cent of the registered voters of the county. We find plenty of people willing to sign, but those who are willing to put in time circulating petitions are few in number. What greater Christmas service can we bring those who have gone on to the other shore

than a service in aiding the movement to rescue their graves from the devastation of unexcusable neglect?"

There are at least eight places in Santa Ana where registered voters who have not signed a cemetery petition may sign. The names of those having petitions, and the places where the petitions may be signed, follow:

At the office of Wallace & Goode in the Spurgeon building.  
Miss Arlie Cravath at the Santa Ana Chamber of Commerce.  
Mrs. Olive Lopez at The Register office and at her home, 519 West Fifth.

C. L. Beach, 616 North Main.  
Garden, Liebig & Lasby office, 307 North Main.

Ollie Brothers, 630 North Shelton.  
E. T. Langley office, Opera House block.

Mrs. E. Millings, 901½ East Fourth.

Miss Marg Esau, 1920 Poinsettia.

Simpson, 431½ West Fourth.

Simpson also has a table most of the time in front of the Orange County Trust & Savings bank.

Solicitors are at work in Fullerton, Orange, Garden Grove and in some other communities of the county. H. F. Heterbrink is in charge at Fullerton, D. R. Gardner at Orange and Frank C. Thompson at Garden Grove.

Under the law under which the district is to be formed every neglected cemetery in the county will be taken care of by the representatives of the district.

## FARM STABILITY VERY VITAL TO GOVERNMENT

(Riverside Press.)

Declaring that "when American agriculture begins to lose ground, the political stability of the nation is endangered," the secretary of agriculture in his annual report discussed the draft from the farms to the cities and emphasized the necessity of doing everything possible to make farming profitable and country life more attractive.

"Life on the farm and in the rural community," he said, "gives rise to problems the solution of which is of vital importance to American agriculture and American civilization. It has been demonstrated that these problems are susceptible of scientific investigation."

The secretary called attention to the alarming drift away from the farms in a forcible manner. In part he said:

In our country agriculture, manufacture, transportation, merchandising, and professional service—strong competitors with one another for both capital and workers—are all expected to hold their own. The history of agriculture seems to show, however, that farming is in periodic danger of losing its grip on both capital and workmen and of allowing them to slip away into city industries. Statesmen have always viewed with alarm the tip of the scales from farming to industry and from country life to urban life. When the farm loses its balance to the city, the nation is threatened with a food shortage or with dependence upon foreign countries for essential foodstuffs. But the shortage of food is not the only danger. When American agriculture begins to lose ground, the political stability of the nation is endangered.

The returns from the 1920 census are not yet sufficiently complete to make a full statement of what has occurred during the last decade in the shifting of population between city and country. The report on somewhat more than one-third of the counties of the United States, however, indicates an actual reduction in the rural population in many counties of New England and New York, in some parts of the south, and in the heart of the corn belt. Some of them lost in rural population during the preceding decade, while others are losing for the first time now. On the other hand, many rural counties in the northwest, and west, the south, and the coast states have been gaining.

There is every reason to believe that the same causes which account for a relatively decreasing agricultural population in former decades have been at work during the past ten years. The increased standards of living of the American people as a whole have caused a great expansion in all industries centering in cities, and the industrial bid for workers, accelerated by conditions during and immediately following the war, has been a strong magnet exerting a pull upon workers in agriculture.

The following table shows the percentage of the total number of persons employed in all American occupations who were engaged in agriculture from 1820 to 1900:

1820	87.1
1840	77.5
1860	44.4
1880	32.2
1900	35.7
1910	32.9

We may expect for 1920 a lower percentage than 1910. It will not be surprising if the complete returns show that only 30 per cent of our workers are farmers. It is true, of course, that increased efficiency in farming operations resulting from the use of new and better machinery and the application of scientific knowledge has consistently lowered the demand for labor in certain kinds of farm work and that the labor thus released has been the first to yield to the call of the city. It is a well-known fact also that army life and its accompanying set of new associations detached from farming and from rural life a considerable number of farm youth. Whether this loss

is a permanent one no one can say, but in any event it must be considered unusual.

The real concern in America over the movement of rural population to urban centers is whether those who remain in agriculture after the normal contribution to the city are the strong, intelligent, well-seasoned families, in which the best traditions of agriculture and citizenship have been lodged from generation to generation. The present universal cry of "keep the boy on the farm" can and should be expanded into a great public sentiment for making country life more attractive in every way. Neither force nor exhortation will keep people in the rural districts if they are to be deprived of the benefits of modern social, educational, and other opportunities. But when farming is made profitable and when the better things of life are steadily brought in, increasing measure, to the rural community, so that farm families need not give up farming in order to satisfy that desire for the best that modern civilization affords, the great motives which lead youth and middle aged to leave the country districts will be removed. In order to assure a continuance of the best type of farm people in agriculture, there can be no relaxation of the present movement for a better country life, economic, social and educational.

## NURSE AND FRIEND TURN AGAINST JUDGE

CLEVELAND, Dec. 22.—The second degree murder trial of William H. McGannon, chief justice of the Municipal court, charged with slaying Harold S. Kagy last May, was featured by the testimony of the state's chief witness, Miss May E. Neely, a nurse, for sixteen years the friend of McGannon, who swore that the judge offered her \$500 to "keep her mouth shut" about the shooting and go to County Prosecutor Baskin and retract what she had told him and the grand jury regarding the case. She testified that her sister, Louise Webb, was concealed in a closet in the room at the time and heard the offer of \$500.

"I saw McGannon pull something from his pockets and simultaneously a shot rang out. Then Harold Kagy lurched forward," Miss Neely testified.

Miss Neely testified that she met Judge McGannon sixteen years ago and that for the first few years of their acquaintance she saw him every day. The attorneys for the defense made every effort to prevent Miss Neely telling the story of her connection with McGannon.

It is known Miss Neely has filed a complaint with the association against the judge. It was upon this complaint that the association based its grounds for disbarment proceedings that are now pending against McGannon.

A wonderful film shows the "American Catholic in War and Reconstruction" at the Temple Theater Wednesday afternoon and evening.

Think of "EXCELSIOR" when you want milk, cream and ice cream.

# MINING ENGINEER SAYS HE SUFFERED 30 YEARS

Well Known Oregonian Declares Tanlac Has Given Him a New Lease On Life.

"For the first time in thirty years I am now able to eat whatever I want without suffering afterwards," said F. C. Rogers, a well-known mining engineer living at 1075 East Nineteenth street North, Portland, Ore. "I know now what it is to enjoy fine health, for Tanlac has built me up until I have gained fifteen pounds and today I am feeling better than I have in 25 years. In 1890 my stomach went back on me and in spite of everything I went down hill until I was a nervous and physical wreck. Everything I ate soured on my stomach and I would have awful spells of indigestion. "For days at a time I couldn't retain a thing I ate and I had a burning like a coal of fire in my throat

and chest. These spells were so bad sometimes I could neither lie down nor sit up with any comfort. "I had pains all over my body. I suffered from nausea and gas and bloated up so tight I could hardly breathe. My nerves broke down and I seemed to be playing out altogether. "Nothing in the way of medicine did me any good until I got hold of Tanlac and now I can hardly remember the day when I felt better. I eat like a bear and never have a sign of indigestion afterwards. The pains and gas have all disappeared and my breathing is free and regular. My nerves are as strong as iron and I sleep as sound as I ever did in my life. I am as sound as a dollar, never miss a day from my work and I feel that I have a new lease on life. "Tancac is sold in Santa Ana by Rowley Drug Co., Heying Pharmacy, Anaheim, Jesse Hardy, Fullerton, and the leading druggists in every town.

# ORANGE COUNTY RANKS FIFTH IN BIRTHS

SACRAMENTO, Dec. 22.—The year 1920 is to be a record year, numerically at least, for babies in California. Sixty-five thousand native sons and daughters already have been added to the population by birth, according to L. E. Ross, director of the State Bureau of Vital Statistics, and registrations are still pouring in from a majority of the fifty-eight counties of the state. In 1919, as far as official registrations show, babies born in this state numbered about 52,000. Gradual improvement in registration also is reported by Ross, although he estimates that there are more than 6,000 babies under one year of age in California, whose births have never been officially recorded, mostly as the result of neglect on the part of physicians. He reports the registered birth rate for the entire state at 18.3 per thousand population. In proportion to their population, Placer and Imperial counties top the list with a

record each of 25 babies for every thousand population. Sacramento, with a rate of a fraction above 24, also is reported near the top of the list. The first ten counties in respect to registration are given in the list of Ross as follows: Imperial, Placer, Kings, Sacramento, Orange, Fresno, Madera, Ventura, Kern and Tulare. On the low end of the score are included the counties of Alpine, Mono, Amador, Inyo, Plumas, Sierra, Calaveras, Marin, Sutter and Mariposa. Fully half of the babies not registered, Ross stated, were born in the counties of San Francisco and Los Angeles. None of the bay counties are given credit for a complete registration. San Francisco's rate is given as 17.4 and that of Los Angeles as 13.3. Ross says that if all births were reported to the Bureau of Vital Statistics as provided by law, the rate in the latter two places should be around 20 for each 1,000 of population. Among the Japanese residents the registration is said to be the nearest complete. Christmas gift—\$200.00 off new Maxwell and new Paterson "6"—\$21 N. Main. # URGES REDLANDS ORANGE MEN TO HOLD CROPS

REDLANDS, Dec. 22.—Men who "rock the boat" in an effort to scare orange growers into accepting a low price for their fruit were severely denounced by leading packers here. Because of the fact that the market has shown weak for some time, certain interests have taken advantage of the situation to intimidate growers, it was stated. In the opinion of S. Melvin Butler, district manager for the Randolph Marketing company, growers, have nothing to fear if they will stand pat. Butler stated that he sees no reason for alarm, that as soon as Florida and Northern California shipments are cleared up, market conditions will at once improve. He looks for somewhat lower prices than prevailed last year, as all packers admit, but stated that the grower should get satisfactory returns—from three to three and one-half cents per pound. An important factor that has been somewhat overlooked, in the opinion of Butler, is that unless copious rains fall soon fruit will not size up as anticipated and as a result there will be about a quarter less shipped.

No Excuse for Selling In the opinion of J. A. Stewart, assistant sales manager of the Mutual Orange distributors, there is no reason for growers contracting their fruit at this time on a cash-basis at the low prices being offered. He says that as soon as other districts get out of the way California will have a clear market and that satisfactory prices will rule. Stewart further stated that all the mutual concerns buy on a cash basis; that they are able to dispose of the offerings because certain of their customers take fruit that way. Furthermore, he said, actual returns, less cost of packing and handling, goes to the grower instead of the speculator. Contracts for fruit on the cash basis carry frost insurance clause, Stewart said, so that growers are no better off in that respect. Buyers were blamed largely for the prevailing weakness of the market by Stewart. He said that they paid such low prices that jobbers took their cut from them and offered accordingly for what reached the markets.

Brown Spot Shows More than the usual trouble has been experienced by shippers from the brown spot which develops after the orange leaves the packing house. It always occurs to a greater or less extent in early fruit and that which moves after the holidays is practically free of trouble. Peculiar feature of the spot is that it develops oftenest in the very best grades and so mars its appearance that it sells for a low price. Mystery surrounds the cause of the spot. One theory advanced is that it is the result of a bruise.

Fruit Moving Despite the fact that shipments were supposed to have stopped a week ago, considerable fruit has gone forward from the Redlands district the past week, the total being 10 cars, bringing the shipments for 1920-21 season to 105 cars.

# PLAN TO INCREASE ORANGE SHOW SPACE

SAN BERNARDINO, Dec. 22.—That the Eleventh National Orange Show, to be held in San Bernardino February 18 to 28, will be physically larger and more elaborately artistic than the exposition last year, which was declared to have reached the pinnacle of its possibilities, was an announcement made by the management today. Forty feet of space will be added to the big tent and a more detailed and colorful decorative program than before attempted carried out.

The Orange Show will again be held at Urbana Springs Park, the natural attractiveness of the location adding much to the general beauty. The scope of the coming show can better be judged when it is said that the visitor will be able to spend an entire day on the grounds and not see the same thing twice. Floor plans for the show have been completed and space is being assigned exhibitors. Early indications are that the industrial and automobile departments will overflow from the big tents to the grounds. Space is being assigned to the order applications are received. Features exhibits have been booked from cities and counties as far north as Sacramento and as far south as San Diego county. There will be more quality fruit on the racks than ever before and competition for awards will be more keen.

# FRESNO CO. TO TRY COW TESTING PLANT

FRESNO, Dec. 22.—Realizing the necessity of a diversified system of organization as the only permanent and successful means of retaining high production and quality of milk produced in Fresno county, a Cow Testing association has been organized by the dairy department of the county farm bureau, and to date the owners of 1000 cows are signed up in the association. The leaders and directors of the association are H. E. Vogel, A. J. Quist and J. A. Poytress, all men of practical experience and interested in the dairy business.

# STAY OF EXECUTION GRANTED TO RUMELY

NEW YORK, Dec. 22.—Federal Judge Grubb granted a stay of execution in the case of Dr. Edward A. Rumley, S. W. Kaufman and N. R. Lindheim, convicted of concealing German ownership of the New York Evening Mail during part of the war. They were each released in \$10,000 bail, pending appeal to the higher courts from their sentences to the Atlanta penitentiary for a year and a day.

Practically all the textile factories in Petrograd are now idle.

# 3000 WITNESS PAGEANT

## PILGRIMS' STORY BEAUTIFULLY AND IMPRESSIVELY TOLD IN SIX EPISODES OF CITIZENS OF S. A.

Beautifully, impressively, the Pilgrim Pageant was produced in Santa Ana last night.

Three thousand people witnessed the pageant. There were five performances, with 600 tickets sold to each performance.

As the Pageant committee had hoped, the pageant was a community affair. Scores assisted in making it a success. People from all walks of life attended.

The story of the coming of the Pilgrims to America was told. That they came to America to preserve their ideals of religious freedom was forcefully portrayed. They underwent great hardships, and suffered loss of life. Winters were hard, and the colonists were menaced by Indian enemies.

And in the end God led them through privations to thankfulness for plenty, peace and contentment. As the result of their loyalty and devotion to the great cause of liberty, the ideals that have made America the land of the free and the home of the brave were firmly planted.

It was the purpose of the Pilgrim Pageant to present the story in an impressive manner. This purpose was achieved, admirably.

It was evident throughout that every episode had been prepared carefully. The costuming was perfect, from the little Dutch girls and their queerly-hatted fathers in the first episode to the symbolical figures in the last episode.

That the committees that put on the pageant have every reason to feel satisfied, is declared by those who witnessed the pageant.

The singing between episodes, the decorations of posters, the infinite detail in the scenes, the talent displayed in composition—for the scheme of the pageant was worked out in Santa Ana and practically all of the spoken parts were written here—were features in the success of the affair.

**Pilgrims in Holland**  
 The very setting of the scene for "The Pilgrims in Holland" prepared every visitor for entering into the spirit of the pageant. There was a forest of young trees, the arrangement of which artistically fitted into the idea that people have of Dutch art.

There was a windmill, a gem in itself—a Dutch windmill that added a world of effectiveness to the scene in Holland.

Mrs. Albert C. Zaiser stepped through the greenery and in a most impressive manner delivered the prologue, written by Mrs. John Clarkson. The whole drama of Puritan ideals and their fight for a foothold on the soil of a new country was opened up in the prologue. The scenery and the prologue put everyone into full accord with the reverent spirit of the celebration.

Then softly came a song, and there marched out lines of Hollanders, followed soon by a group of Pilgrims who had come to say farewell before starting for America. Kneeling in

prayer, the Puritans heard the impressive charge that came from the blessed trio, Faith, Hope and Charity.

**Virgin America**  
 The second episode, given at the Temple Theater, pictured "Virgin America." This was the wild land of uncouth inhabitants to which the Pilgrims came.

There was an Indian village. At daylight the squaws began cooking the morning meal. Yawning children came from the tepees. Then came the braves. The ability of the tribe's medicine man—Jesse Elliott—was put to the test. He brought rain.

The chief—Dr. F. W. Slabaugh—announced a wedding in the tribe, and in its celebration came a feather dance attractively executed by a group of Indian girls.

A runner brought word of an enemy. At once came a war dance in which the whoop of the bloodthirsty savages was heard. After that, the village quieted down and an Indian woman—Mrs. F. W. Slabaugh—placed her child beside the fire and sang to him the kind of a song that Americans call a cradle song. It was a very effective ending to the Indian scene.

**The Pilgrims Land**  
 For Episode No. 3 at the First Presbyterian church, great care had been exercised in getting a proper background. A forest of trees surrounded an opening in the woods. Announcement of the purpose of the episode was made, and thereafter not a word was spoken. The whole presentation was effectively and beautifully done in pantomime, with singing in the distance at times added a charm and unusual beauty to the sentiment of the action.

There was an Indian village. The Indians disappeared when a strange people were seen approaching. Arriving in the new land, the Pilgrims knelt while the strains of "Praise God From Whom All Blessings Flow," sung softly by hidden singers, were heard. This was one of the most spell-binding moments in a very pleasing episode. The tracks of an Indian were discovered by a Pilgrim. Then came a friendly Indian, and after him came others of the tribe. Friendship reigned.

**Miles Standish**  
 Three characters stood out in the presentation of "The Courtship of Miles Standish" at the First Christian church, the fourth episode. They were the rough old fighter, Miles Standish, admirably portrayed by R. R. Miller; John Alden, the poet, whose part was taken very fittingly by George S. Chessum; and Priscilla, whose sweet Puritan character was portrayed very successfully by Miss Kathleen Schonengerdt.

Two cabins with primeval forest roundabout formed the scenery. The action was very good, and the playlet moved forward smoothly.

The historic question put by Priscilla to John Alden, "Why don't you speak for yourself, John," led to the wedding scene. The story of the anger of Miles Standish, who had sent John to woo the girl for him, and his forgiveness later is too well known to need detailing. It was all well presented.

**The First Thanksgiving**  
 The fifth episode, given at the First Baptist church, by the American Legion, had a carefully prepared background, and the action throughout was excellently handled. Old Father Time opened the episode, and in a procession of Indians and Pilgrims brought the scene down to date.

The three principal parts were very well taken by Martin Biggs as Governor Bradford, Dixon Tubbs as Miles Standish, and Wilbur Getty as Chief Massasoit. The Pilgrims had begun to prosper in their new land. They had grown corn. Peace and contentment were taking the place of hardships and fighting. The Indians were friendly. A treaty was signed with Chief Massasoit.

The governor declared a period of thanksgiving, praising God for the things that had been brought to pass.

**Following the Gleam**  
 As a finale for the story came the sixth episode, "Pilgrim Followers of the Gleam," presented at the First Congregational church.

The followers of the episodes were ushered to their seats by A. J. Crookshank and J. A. Cranston in Pilgrim uniforms.

Ideally presented, and with an effectiveness that they closed the series of episodes that made up the pageant, the sixth episode pictured what America is today because of the devotion and sacrifices of the Pilgrims.

The singing of "The Reckless" by Maurice Phillips, every eye a Pilgrim, with the spotlight upon him, opened the episode most effectively.

Across the stage above which gleamed the Star, came "The Spirit of the Pilgrim," represented by Frank Kellogg, ushering to the pedestal "The Symbol of the World," the part taken most charmingly and impressively by Mrs. Ella Irene Campbell. Her voice carried the message of the Pilgrims as evidenced in freedom-loving America today.

The spirit of freedom is held out to the whole world, and pilgrims from many lands have come to America to become part of the great country.

The most effective, and the most thrilling of the pageant, came when America, represented strikingly by Miss Carolyn Houghton, stepped forth.

The singing throughout this episode was very pleasing indeed.

It's a great picture—"The American Catholic in War and Reconstruction" at the Temple Theater Wednesday.

### Director of Pageant Believes Success Points to New Spirit

"It was our aim," said Mrs. John Clarkson, director of the pageant, "to put over the great idea that it was the religious fervor and faith of the Pilgrims that has made this nation great, and that it is only by maintaining the ideals of the Pilgrims that we can keep our nation great."

"I believe that the pageant is the beginning of better things in community spirit and effort in Santa Ana. The response of the people of Santa Ana was very pleasing. The co-operation was great; the harmony among those having anything to do with the pageant beautiful. I am sure that the pageant committees are all very happy and well satisfied over the enthusiasm with which the community entered into the affair and with the success of the effort."

### LONG BEACH FIXES POLICEMAN'S HEIGHT

LONG BEACH, Dec. 22.—Last week, after considerable discussion, Long Beach city commissioners decided that policemen need not be so tall as civil service rules here have required, namely, five feet nine inches. Public Works Commissioner John D. Seerie, six feet one inch tall, declared short "cops" are as efficient as tall ones. At the commission meeting five feet eight inches was fixed as the minimum height.

Taxi service, day or night. Crown Stage Co. Phone 925.

### GIRL GIVES JURORS DETAILS OF ATTACK

SAN FRANCISCO, Dec. 22.—Jessie Montgomery was scheduled for cross-examination as the complaining witness in the trial of Ed (K. O.) Kravosky, prize fighter, when today's session of the gangster trial opened in superior court here.

Miss Montgomery completed her direct testimony late yesterday, relating the story of her alleged experiences in the Howard street shack as she did in the trial of Ed (Spud) Murphy.

Spectators concentrated their interest during Miss Montgomery's testimony on the attitude of Kravosky's wife. She sat as if stunned with surprise when the girl testified to Kravosky's alleged treatment of her.

Judge Ward, presiding, notified the attorneys that he expected to have the case concluded by Friday, so that on Monday Jim Carey could go on trial as the third alleged gangster to face the court.

It was the expectation that evidence would be completed tomorrow.

### TITLE HOLDER HOME TO SPEND HOLIDAYS

NEW YORK, Dec. 22.—Ted (Kid) Lewis, welterweight champion of England by his recent knockout of Johnny Basham, is back from London to spend the holidays here. He will return to London the second week in January where he is booked to fight Jack Britton for the world's championship.

## Announcement

**Gasoline for Brains**

HERE IS A CHANCE TO GET ENOUGH GASOLINE FOR A MONTH, JUST FOR A THOUGHT --- IF IT'S THE RIGHT ONE.

Are you a good guesser? If so you may easily win the first prize—30 gallons of gasoline.

Or the second prize—20 gallons of gasoline.

By simply guessing the average mileage four Essex Motor Cars will make on one tank of 11 3/4 gallons of gasoline to each car.

### HERE IS THE PLAN

Wednesday, December 22, at 12 o'clock noon, two Essex cars will be officially started from the center of Santa Ana, and at the same time two will be started from Fullerton, each of the four to have one full tank of gasoline, the cap of the tank sealed under the direction of Major J. C. Fegan, in charge of the U. S. Marine Recruiting Station, with headquarters at Los Angeles.

These four Essex cars will be driven by their owners, and each one will carry a member of the U. S. Marines acting as official observer and reporting direct to Major Fegan every important detail of the run.

The cars will be driven on a circuit as shown on the map above. All four Essex cars will be driven until the last drop of gasoline in the tank has been used up.

### WHAT IS THE AVERAGE THEY WILL MAKE?

The Essex tanks each hold 11 3/4 gallons.

Each Essex car is stock throughout.

### HERE ARE THE OWNERS

No. 1 is owned by T. R. Reid, Fullerton.  
 No. 2 by F. C. Krause, Fullerton.  
 No. 3 by A. L. Havens, Santa Ana.  
 No. 4 by H. C. Schnacaenberg, Orange.

You probably know these people personally. We suggest that you talk with each of them and form your own idea as to their mileage and economy of operation. Then make your guess on the attached coupon, which tear off and mail to us.

### HOW CONDUCTED

First and second prizes of 30 and 20 gallons of gasoline will be awarded in both Santa Ana and Fullerton. Any bona fide resident of Orange County is entitled to one guess for the gasoline prizes.

To assure Orange County residents of fair play in this contest, no fake guesses, or guesses from outside residents will be allowed to participate in this contest. We will recognize only those sending in their full names and proper addresses which will be verified before awarding prizes.

As this contest will be conducted under the direction of Major Fegan of the U. S. Marines, all coupon guesses will be submitted to a "Board of Award" consisting of Major Fegan and the four U. S. Marine observers.

After checking the records made by the cars the winner of each prize in each of the towns will be officially announced in the Fullerton Daily Tribune, Anaheim Herald, Santa Ana Register and Orange News-Press.

305 WEST FOURTH

# A TRUCK FOR CITY, FARM AND INTERURBAN DELIVERIES

In the few years it has been on the market, the Ford One-Ton Truck has mounted rapidly to popularity. During the past year, more than one-third of the total number of trucks sold in the United States, were Ford One-Ton Trucks. It is a record of achievement made entirely on demonstrated merit.

Wherever the Ford Truck has been used—on the farm, in the city, it's sure, economical service and simplicity have made it a success. So that today it is a necessity for the wholesaler, the retailer, the farmer. It offers efficient and economic hauling for every business. Demountable Rims and Pneumatic Tires.

The Ford One-Ton Truck costs less to buy than any other truck; it costs less to operate and less to maintain. Added to this, is the Ford service organization; spare parts and Ford mechanics are always convenient and ready to keep the Ford Truck on the job. The Ford Truck cuts delivery costs. Because of increasing demand, orders should be placed without delay.

### STATE ACTIVITIES OF YEAR REPORTED

BERKELEY, Dec. 22.—Report of the activities of the agricultural staff of the University of California in teaching, experimentation, and community organization, for the year 1919-20, was made to President David P. Barrows by Dean Thomas Forsyth Hunt of the College of Agriculture.

Work carried on throughout the entire state in aid of the farming industry in all its branches is completely described in the 159-page report of the director of the Agricultural Experiment station, the director of resident instruction, and the director of agricultural extension.

Subjects of importance to the farmers of the state dwelt upon include results of investigations in pressing agricultural problems peculiar to California, land ownership, changes in educational policy, farm demonstrations, livestock auction sales, wool and cotton pools, marketing departments, rural fire protection, cow testing and correspondence courses.

Probably no more important report to the agricultural interests of the state has appeared in recent years in the opinion of agricultural authorities at the state university.

### IT FAILED TO WORK

KIRKSVILLE, Mo., Dec. 22.—Ed Epperson hit on the plan of wearing a miner's lamp on his cap when he went out to milk his cows before daylight. The first cow he approached kicked him. He landed in a haystack. His lamp set fire to the hay and the stack was destroyed. Epperson and the cow were saved.

Beautiful hand painted satin boxes and work baskets packed to order at the Dragon.

### JUDGE LANDIS RAPS PRESIDENT'S POLICY

CHICAGO, Dec. 22.—Judge Kene-saw M. Landis refused to sentence six men charged with stealing 600 sacks of sugar from trains in interstate commerce after learning that President Wilson had, last week, granted a pardon to James J. Dorsey of Gilbert, Ill., known as the "millionaire cattle king."

Dorsey was sentenced to eight years in Leavenworth prison by Judge Landis after conviction of selling several thousand head of tubercular cattle throughout the West under paper representing them as government tested and healthy. He began serving his sentence June 4, 1919. Last July President Wilson cut the sentence to four years. At that time Judge Landis in open court declared he could not "understand the workings" of the President's mind.

"I can't sentence these men with the Dorsey thing fresh in my mind," Judge Landis declared in court. "Dorsey's activities ran into the thousands of dollars, while these men stole only a few hundred dollars' worth of merchandise. I will continue this case indefinitely."

### Southern California

SAN DIEGO.—San Diego's magnificent exposition plant in Balboa Park, preserved intact from 1915, will be put again to its original purpose with a new exposition beginning January 1, 1922. It was announced when articles of incorporation were filed by the California Exposition company. The new exposition will be known as the California Mid-Winter Exposition, and will be an annual event, running four months, from January 1 to May 1.

ONTARIO.—Activities in the oil fields south of Ontario have so far progressed that there are now seven wells being put down in that territory. There are many indications that oil in profitable quantities will be found on this side of the range of hills which separates this valley from the Santa Ana valley. All of these seven wells are south of the south end of Euclid avenue and are being drilled both east and west of that point.

LONG BEACH.—Two hundred Long Beach men, divided in twenty teams, will wage a four days' campaign next week to raise \$50,000 as a civic contribution toward the estimated \$100,000 expense of restoring the wrecked dome of the First Christian church, which collapsed last Thursday, injuring seven men.

EL CENTRO.—Judge Phil D. Swing in the superior court issued the order dissolving the North Alamo Water company and naming H. H. Clark, J. W. Jesse, S. C. Mulligan, Leroy Little and J. W. Daly as the trustees to liquidate its affairs. This is the company which was merged into the present No. 9 company. It was merely a consolidation of interests.

LOS ANGELES.—Charged with transporting ten quarts of Scotch whisky, believed to have been smuggled into the country on board the steamer Santa, William J. March, naval architect employed at the Southwestern Shipbuilding company, was arraigned before U. S. Commissioner Stephen G. Long and released under \$200 bonds.

BRAWLEY.—The committee composed of L. C. Lee of Pappas company, George Jones of Gerrard and company, and Ed Seibach of the Alamo Packing company, Heber, secured ten signatures of firms who will agree to have at least five cars of lettuce inspected this season by the state inspection crew. It is believed that there will be general state inspection if there is any lettuce shipped.

GLENDAL.—The executive committee of the County Y. M. C. A. has accepted this city's invitation to hold the ninth annual convention here on January 11. The meeting will be held at the First M. E. church, and prominent speakers will appear on the program.

### BIG VERDICT GIVEN FOR DEATH OF MAN

NEWCASTLE, Wyo., Dec. 22.—Mrs. Fred Walker may never be able to collect it, but the amount sounds mighty attractive.

Judge Hsley, in district court here, awarded Mrs. Walker a judgment of \$100,000 against Walter Sim and the Reel brothers, who are accused of killing Fred Walker in the Osage oil fields last summer.

The quarrel between the men arose over disputed oil lands.

The Reel brothers have never been captured, and Sim recently escaped from jail and is also missing.

### NEW FERTILIZER SOURCE FOUND IN TRY-OUT

What may prove to be a revolutionary development in the fertilizer industry of the world has been reached by the Bureau of Soils, United States Department of Agriculture, which has just solved the problem of extracting phosphoric acid from phosphate rock by heating mixtures of this mineral, sand, and coke to a smelting temperature in a fluid furnace. The new process has been worked out on an approximately commercial basis at the department's experimental plant at Arlington, Va.

Comes Largely from Florida

The phosphate used for fertilizer in the United States comes largely from the deposits of rock in Florida. There are also large deposits in Tennessee and a number of beds in South Carolina, where the rock was first exploited for this purpose. The established method for producing soluble phosphate consisted in treating the rock with sulphuric acid. In practice, a quantity of sulphuric acid equal to the quantity of rock is used, and the resulting product, which is known as acid phosphate, contains only one-half the percentage of phosphoric acid contained in the rock from which it was derived. Commercial acid phosphate, for instance, made from a 32 per cent rock contains only 16 per cent of phosphoric acid. The elaborate washing and screening process now used in preparing phosphate rock for treatment with sulphuric acid often results in the loss of two-thirds of the rock, and it was with a view to saving this immense waste of phosphate that the new process was evolved.

The United States Department of Agriculture has been experimenting for some time along the lines of freeing the phosphoric acid by means of a high degree of heat. It was the first to adapt the Cottrell precipitator to the collection of phosphoric acid, the apparatus having been previously devised by Dr. Cottrell to abate the smoke nuisance and to recover sulphuric acid from smelting operations. The first work was done in an electric furnace which was thought to be required to generate the high degree of heat necessary, about 1,600 degrees, C., or 2,900 degrees, F. At this temperature mixtures of phosphate rock, sand, and coke were reduced to a molten slag which was tapped off at intervals, the phosphoric acid escaping in the form of fumes which were afterwards collected in a liquid or solid form.

Experiment Further

It soon became evident that this process would be prohibitively expensive with an electric furnace, except in localities where electric power could be obtained at a very low cost, about \$25 per horsepower a year, and the department therefore turned its attention to the possibilities of using crude oil, the cheapest fuel obtainable in the vicinity of the large phosphate-rock deposits of Florida. The efforts have recently met with success, and figures kept on the experimental runs at Arlington indicate that phosphoric acid can be extracted more cheaply in an oil-burning furnace than in the old sulphuric-acid process.

On the problem which department scientists have worked out is that of keeping the fuel in direct contact with the rock material until the reaction is well started. For this purpose, and for convenience in handling, the material is briquetted with coke and sand. Briquetting keeps the coke fuel within the mass and retains it until the reaction is well started. Sand or silica is necessary to bring about the chemical reactions and this sand is largely present as an impurity in the Florida phosphate deposits, together with a clayey ingredient which acts as an excellent binder in making the briquettes. It is the very impurities which make rock objectionable under the old process are turned into an asset.

Economics Effected

The practical value of the new development is indicated by the fact that in the experimental runs at Arlington the department chemists were able to recover a 64 per cent phosphoric acid (47 per cent P<sub>2</sub>O<sub>5</sub>) as against the 16 per cent product ordinarily obtained by the sulphuric-acid process. By passing ammonia gas into this phosphoric acid, solid ammonium phosphate, a very concentrated material containing two valuable fertilizer ingredients, results. This material stands up to heavy transportation and handling charges.

It is also practicable to mix the phosphoric acid with phosphate rock in such proportions as to give a product containing 50 per cent of soluble phosphoric acid. This product is similar in its properties to ordinary 16 per cent acid phosphate, is convenient to handle, and may be used by an intelligent farmer who has the technical knowledge to reduce the quantity placed upon the soil, and to guard against direct contact with seed.

It also will permit a material saving in freight to central plants where the product may be diluted or mixed with other ingredients for shorter hauls. The difference between a 50 per cent product and a 16 per cent product is an immense saving in the freight charges, and the release of large quantities of rolling stock and vessel tonnage now engaged in the transportation of phosphate and phosphate rock.

Estimate Charges

While the actual cost of the new process in a large industrial plant is difficult to estimate with accuracy in the work thus far done, even on a small scale, it was found that the fuel consumption was only about 15 per cent of the value of the product, while with the sulphuric acid process the cost of the acid used seldom runs below 22 per cent. This factor, together with the reduction of freight charges, justifies the assumption that the new process will be of the utmost importance to the fertilizer industry and to the farmers who are compelled to use a constantly increasing amount of commercial fertilizer.

At 7½ cents per mile, 5 people can travel for less than bus, train or street car fare, not to say anything about the added conveniences and comfort in going and coming when and where others don't go. When taking your next day's outing, remember Copson rents cars without drivers.

### LAUDS FAR NORTH FOR AGRICULTURE

WINNIPEG, Man., Dec. 22.—Speaking before the Manitoba Horticultural society, Prof. N. E. Hansen of the South Dakota Agricultural college lauded the Arctic north as a Utopia of agricultural, horticultural and livestock possibilities. Years of investigation, he claims, have shown him that fruits can be grown within the Arctic Circle, alfalfa produced successfully, in a climate where the temperature descends to 91 degrees below zero and sheep and cattle thrive in the snow and mature free from disease. He urged the transportation of Siberian alfalfa to Canada, prophesying a yield eight times greater in rich Canadian soil, and a crossing of Canadian sheep with the harder Siberian breeds.

## LEGION DANCE WILL BE BIG ATTRACTION

ORANGE, Dec. 22.—A continuous whirl of fun is promised devotees of dancing Friday evening, "Christmas Eve" at a dance to be given at Campbell's hall, beginning at 8:30. These dances will be given every Friday evening during the winter. Friday night will inaugurate the first of a series of prize waltz contests for the grand prize of a ladies' beautiful diamond ring valued at \$100. The ring will be awarded by a process of elimination. On Friday night this contest will be under way when judges are scheduled to select the best dancing couple on the floor. This couple will not compete any more for the prize until the finals at which time twelve couples will vie for the prize. In this manner it will give everyone a chance to compete and the couple chosen could undoubtedly lay claim to dancing honors in the county.

The management of these dances will spare no effort to make the local dance one of the best in the county. Novelty carnival and masquerade dances as well as other features will be given from time to time.

## "MIDWINTER TIMES" OUTGROWS ITS OWN ADVERTISING COPY

"Southern California won't stand still long enough to have its picture taken," said a representative of The Los Angeles Times this morning, in arranging to advertise the "Times Mid-Winter Number" in the Register. "Three times we have enlarged the size to accommodate new developments," said he. "The latest addition, forty pages, was decided upon after our advertising plates were cast, hence the edition will be even larger than represented in our advertising."

A glance through an advanced copy reveals numerous new features. A double-page bird's-eye map shows the cities, mountains and automobile roads of Southern California, while another two-page spread shows Los Angeles' location with regard to world commerce.

Many articles deal with phases of life which hitherto have received little attention, such as "Hidden Beauty Spots," a suggestion for bikers; achievements of California women; unusual industries; census figures and the Southland from the children's standpoint.

"It aims to give a complete survey of Southern California, covering all its interests," said the Times' man. "Eastern people will be astonished at our progress, in fact our own citizens will be surprised at the extent of our new industries. The illustrations are intended to take one on a virtually a sight-seeing trip, picturing city and country life, historical spots, industries, shipbuilding, sports, scenic attractions and even reproducing some of the paintings by California artists."

## ARREST SUSPECT IN GREAT BOND THEFT

WASHINGTON, Dec. 22.—Isadore (Nick) Cohn, long sought by the police of New York, Washington and other cities in connection with the \$5,000,000 bond theft conspiracy of a year ago, in Wall street, was arrested at the Union Station here, while supposedly on his way from Cleveland to New York.

Two detectives of the Washington police force placed Cohn under arrest. He was charged with conspiracy to bring stolen securities into the District of Columbia, an offense charged in indictments returned last spring by a Federal grand jury, and on which four of his alleged confederates, including Jules W. (Nick) Arnstein, are now standing trial in the District of Columbia Supreme Court. The trial of Arnstein and the three others is about to be concluded, presentation of evidence being expected to end today.

## ACTION SOUGHT ON IMMIGRATION BILL

WASHINGTON, Dec. 22.—Decision as to pushing the house bill barring practically all immigration for one year or the reporting of a substitute measure will be made by the Senate Immigration committee after public hearings which will be begun January 3. The committee decided that the hearings should be hastened.

Representative Johnson, Republican, author of the house bill, and Representative Siegel, Republican, New York, who led the opposition, have been invited to appear before the Senate committee.

A study of permanent immigration regulation will follow action on the temporary bar, according to Senator Colt, Republican, Rhode Island, chairman. He said it would be an "exhaustive" investigation to pave the way for a complete overhauling of present laws.

## SECOND STEAMSHIP IS SEIZED BY DRYS

CHARLESTON, S. C., Dec. 22.—The steamship Saxon, operated by the Clinchfield Navigation company in the coal trade with Cuba, was seized by federal prohibition officers under charges of transporting contraband liquor. The steamship Cotopaxi, same owners, was seized Saturday on similar charges. Bond of \$500,000 required for her release has not been furnished. The Saxon is held with the same security required.

**STAYS CLOSE TO JOB.**  
VALPARISO, Ind., Dec. 22.—For 27 years John Echenescher has lived and worked in the north part of Valparaiso and during all that time he has not visited the business district of the city which is only a few blocks distant.

## WASHTUB GONE RESULT OF MINIATURE CYCLONE

GARDEN GROVE, Dec. 22.—A miniature cyclone that did considerable minor damage visited the Garden Grove district Sunday morning, tearing roofs off chicken houses and blowing away a wash tub that is reported as still missing. The wash tub was lost by William Northcross who reported that his last sight of it was as the useful household article was disappearing over some eucalyptus trees. One big tree was uprooted by the cyclone and all loose objects on the place were blown about.

The cyclone passed within a few feet of the residence of Curtis Edwards of the Mission Garage in this city. It was a funnel shaped cloud, he said, that moved with tremendous speed and power.

Mr. Edwards' ranch is about a mile and a half west of Garden Grove.

## CHRISTMAS PROGRAM GIVEN FOR PARENTS

VILLA PARK, Dec. 22.—Friday afternoon the school children in Mrs. Billingsley's and Miss Reisch's rooms gave a little program for their parents which was enjoyed very much by all. Before the close of the program, the children presented their mothers with a little gift they had made in school, and the teachers presented the children with a small gift as a Christmas remembrance. School closed until the new year, as the teachers will be away next week attending institute in Los Angeles.

Miss Anna Uecker and Miss Amanda Pracknow returned from Porterville on Friday evening. They visited in Los Angeles on their way home.

Mr. and Mrs. Guy Williams and two children of San Juan Capistrano visited at the home of Mrs. William Bathgate on Thursday.

Ray Uecker and Jack Phiffer, who have been at Porterville for about two months, returned to Villa Park on Thursday evening.

Miss Dorothy Squires arrived home on Thursday evening from Berkeley, to spend the Christmas vacation with her parents, Mr. and Mrs. E. W. Squires.

Orville Handy and Roy Handy, who have been in the Merchant Marine for some time, have been discharged and are at their parents' home for a visit and to spend Christmas.

Mrs. Wm. Bathgate went to Los Angeles on Saturday morning to meet Miss Florence Bathgate, who was on her way home from college at Berkeley. They arrived home Saturday evening.

Mrs. J. Roy Smith of San Juan Capistrano was a caller in this vicinity on Saturday.

Mr. and Mrs. L. O. Hanselman and baby spent Sunday with Mr. Hanselman's mother and sister at Compton.

Harry Handy is in the railroad hospital at Los Angeles taking treatment for rheumatism. He was home for a few days but had to return to Los Angeles.

Owing to the rain on Sunday a party which had planned to take a trip to Camp Baldy was unable to go, but the disappointment was allayed when all took the lunch they had prepared and spent the day with Mr. and Mrs. J. P. Holditch. During the afternoon some of the more venturesome drove down to Laguna Beach where they got caught in a rainstorm. The ones who stayed home made popcorn and sat around the fireplace talking and planning another trip. Those who were in the party were: Mr. and Mrs. W. J. Rasch, Jack and Frances Ann Rasch of Santa Ana, Miss Nellie Adams, Misses Jessie and Margaret Holditch, Bronson Holditch and Mr. and Mrs. J. P. Holditch and daughter, Gwendolyn.

Miss Margaret Squires is home from Pomona college to spend the Christmas vacation with her parents, Mr. and Mrs. E. W. Squires. Mrs. Ray Billingsley and her sister, Mrs. Harwood, returned from a visit to Los Angeles. Little Miss Plinham, a granddaughter of Mrs. Billingsley's, came home with them to spend the holidays.

L. R. Jones, Mrs. Patterson Billingsley and Miss Bernice Reisch are spending this week in Los Angeles, attending the teachers' institute.

Folks — can you really afford to own a car when you can rent one without driver for as little as \$3 a day? 7½ cents a mile. See Copson, 411 W. 4th. Phone 1426.

## Give HIM a Hat

—the house of Kuppenheimer clothes.

## ENJOY CHRISTMAS AT TUSTIN SCHOOL

TUSTIN, Dec. 22.—The closing exercises of the first semester of the grammar school were in the form of a Christmas program. The manner in which this was given showed thorough training and reflected much credit on both teachers and pupils. After the program, the grades went to their respective rooms, where beautiful trees were laden with a treat from the teachers. An exchange of presents was enjoyed, and the spirit of Christmas was manifest.

The Piepers and Beckmans entertained for dinner Sunday, Mr. and Mrs. Keefe of Los Angeles and Mr. and Mrs. Arches of Brawley.

Messrs. Pieper and Beckman and their families plan to spend Christmas in Los Angeles with Mr. and Mrs. Diebold.

The rain of Sunday was welcome but the wind blew down some trees. Mrs. Cock, who was recovering from a recent illness suffered a relapse, Thursday night, since which time she has been quite ill.

Mr. Chast and Mrs. Young were married in San Diego last Tuesday. They remained there for a short honeymoon.

The Berean class is to meet Thursday afternoon to decorate the school auditorium for the community Christmas tree. The exercises are to be held Friday evening.

The Boy Scout meeting of last Friday night was well attended and proved very interesting. The program consisted of drills, saluting the flag and other features, music and songs by two boy scouts, accompanied by the ukulele. Addresses favorable to the movement were made by Mr. Osborn, leader of the S. A. Scouts, Mr. Vance and Mr. Browning, who was selected leader of the Tustin troop. This troop was organized with a membership of fourteen and many more members are expected soon.

## NAME NEW COLLECTOR OF CITY WATER RATES

ORANGE, Dec. 22.—Miss Bessie Wilkins, city treasurer, was named to fill the vacancy created in the position of city water rate collector by the resignation of Miss Florence Reavis.

Several applications were before the board when the matter was taken up. An informal vote gave Miss Wilkins four ballots. The motion for her appointment was unanimously adopted.

The bid of the Citrus Tire & Truck Company to furnish a Ford truck to the water department was accepted. The price was \$525.

## FREES QUARTET IN PEACH KING'S DEATH

MACON, Ga., Dec. 22.—The four defendants charged with the murder by poisoning of Fred D. Shepard, wealthy Georgia peach grower, last June, were discharged by Judge H. A. Mathews, before whom they had been arraigned at a preliminary hearing.

Beautiful hand painted satin boxes and work baskets packed to order at The Dragon.

Register Want Ads Bring Results.

## GIRL EMBARRASSED AS HOME BREW EXPLODES

FULLERTON, Dec. 22.—This is a sad tale, mates. It has to do with a young lady and a bottle of home brew and if you are not curious, stop right here and don't waste your time. It was a Fullerton girl, all right, and she does not particularly care for "home brew" or any sort of brew.

She was visiting "up town," we are not going to be more explicit, and was asked to bring home something to put in the minicement to make it taste like the kind mother used to make.

Well, boys, her host gladly supplied a bottle of his own handiwork, to which wife's pressure cooker had contributed, and the Fullerton girl blithely started for the street car with this bundle of glad surprise in her dainty mitts.

She changed the mixture or something, for suddenly there was a resounding report, the sound of escaping steam and the "home distill" was decorating the front of the lady's suit.

Did she scream, did she faint, did she call for help? We'll tell the world she didn't. She went back and got another bottle.

## VILLA PARK CHURCH MAKES UNIQUE PLAN

VILLA PARK, Dec. 22.—The community Christmas at Villa Park will be held at the church on Thursday evening at 7 o'clock. Everyone is invited to attend.

A unique plan has been adopted to place this rural district in back of Hoover in helping to feed the starving millions in the Orient. On Christmas day, each household is asked to have in the center of the dining table a dish, which is to be called "The Lord's Dish," for He is to be invited as a Guest into all of the homes. Into this dish, each member of the household is asked to place a gift. On the first Sunday in the new year, these gifts are to be sent to the church, and from there will be forwarded to Mr. Hoover.

On the day of ingathering, the pastor will give to the community a "Watchword for 1921." A special invitation is extended to men to be present.

## IMPERIAL COUNTY IS FIGHTING WEED PESTS

EL CENTRO, Dec. 22.—Special efforts are being put forth by the force under the direction of Commissioner Waite to clean up weeds in Imperial county.

Eradication of Johnson grass, in particular, is one of the objects of this work.

In such isolated cases, where owners refuse to comply with the law, the commissioner does the needed work on "force account," after which a reckoning with the responsible parties follows.

Beautiful hand painted satin boxes and work baskets packed to order at The Dragon.

Register Want Ads Bring Results.

## COMMUNITY NURSE HAS PROPER PAPERS

FULLERTON, Dec. 22.—Miss Alta B. Jenkins, community nurse, has every certificate and credential required under the state law for the work she is doing, in addition to other certificates for special work which are in addition to those prescribed by the statutes.

This was brought out Saturday as the result of articles printed in certain papers making the direct charge that she has no authority to act as physical inspector or nurse under the provisions of the Health and Development law.

Her qualifications, professional and legal, to do the work for which she has been employed in Fullerton including the following:

Diploma as graduate nurse, issued after she had filled every requirement of training called for by the profession.

She is a registered nurse in the state of California.

She is a registered public health nurse.

She is a graduate of the public health nursing course of the University of California.

She has a certificate from the state board of education issued under the provisions of the Health and Development law.

She holds a special certificate authorizing her to teach nursing subjects in the public schools of California.

She holds a certificate from the Orange county superintendent of education authorizing her to work in the schools of the county.

In regard to the statement published by a local paper that she is not authorized to act as physical inspector or nurse under the provisions of the Health and Development law, Miss Jenkins Saturday exhibited such a certificate issued to her by the state board of education January 1, 1920, and good until June 30, 1921.

Regarding a letter published Friday in a local paper and which was alleged to have been sent by the Public School Protective league to the Fullerton grammar school trustees, Mrs. Belle J. Benchley stated Saturday evening that no such communication had been received by the trustees and she was at a loss to understand how such a letter could have been given newspaper publicity before it had been received.

It is said that action will soon be forthcoming on behalf of Miss Jenkins in regard to these alleged false charges but just what form it will take has not been decided.

## WOMAN NATURALIST DIES AT SANTA CRUZ

SANTA CRUZ, Dec. 22.—Mrs. Josephine Clifford-McCrackin, 83 years old, is dead here. She was a well-known contributor to the Overland Monthly in early days, and was instrumental in the purchase of California Redwood park by the state.

For years Mrs. Clifford-McCrackin was the only woman member of the California Fish and Game Protective association, and was the founder of the Ladies' Forest and Songbird Protective association.

Beautiful hand painted satin boxes and work baskets packed to order at The Dragon.

AN  
**Eclipse**  
Cabinet Gas Range  
WITH THE  
"Ventilated Oven"

This Gas Range, unique in many respects, possesses features dear to the heart of every housewife. While most gas ranges are ventilated, only the Eclipse Gas Range has the "circulated air" feature.

Because of this "circulated air" innovation, the Eclipse is a perfect baker. For baking bread or preparing the Holiday Turkey, this Gas Range has no equal.

Have You Seen It Yet—

That John Deere Plow For  
Small Tractors?

We have a new plow that we  
are mighty enthusiastic about.

John Deere built it especially  
for "two plow" tractors.

It's the lightest tractor plow  
you ever saw—lighter than the average  
horse-drawn sulky.

It is tremendously strong—  
stands the strain of utilizing "two-plow"  
tractor power under all plowing conditions.

New process John Deere  
steel permits great reduction in weight  
without impairing strength.

Its beams are guaranteed not  
to bend or break. All frame connections  
are hot-riveted—no loose joints—no  
give anywhere.

Because of its light weight,  
clean scouring qualities and correct  
design, it pulls extremely light—it is a  
real fuel saver.

It is equipped with the clean-  
scouring, long-wearing, thorough seed  
bed-making, John Deere bottoms; those  
strong, close-fitting quick detachable  
John Deere shares; and a simple posi-  
tive power lift that is the most satisfac-  
tory we have ever seen on a tractor plow.

We have this plow in two  
styles. The No. 40 is designed  
especially for use with the Fordson  
tractor. The No. 45, shown above,  
is designed for use with any two-plow  
tractor other than the Fordson.

If you own a small tractor or  
expect to buy one, be sure to see the  
John Deere plow built to meet your  
requirements.

## PLANS TO MAKE ANOTHER VISION VAST FOREST FIRE PROOF OF REFORMER FULFILLED

PASADENA, Dec. 22.—A total of  
at least thirty miles of new trails  
will be completed in the Angeles  
Reserve the next fire season by the  
crews maintained by the U. S. For-  
est service and directed by W. V.  
Mendenhall, district forest ranger,  
whose offices are located here. Since  
last July approximately eighteen  
miles of work have been finished.

These new trails lead into hith-  
erto inaccessible regions and serve  
to remove severe fire danger in that  
they furnish direct entrances to  
thickly wooded areas for fire-fight-  
ers. By another five years it is the  
program of the forest service to have  
a volume of trails which will resemble  
a checker board and cover the  
entire reserve, thus affording a max-  
imum amount of fire protection.

In conjunction with the trail work  
fire-breaks are being established in  
timberland areas that are consid-  
ered menacing should even small  
blazes start. These breaks are sim-  
ilar to streets, being constructed by  
removal of bushes and under-  
brush. They are sufficiently wide to  
halt the progress of a spreading fire  
long enough to give opportunity to  
check it.

During the winter time this work  
is carried on at maximum speed and  
rangers and crews are not compelled  
to devote continuous attention to  
fire protection as in the summer pe-  
riod.

### New Factors.

Next summer should witness a  
decrease in the fire menace provid-  
ing all the contributing factors re-  
cently launched prove effective and  
successful. One of these is the pro-  
posed establishment of a civilian air-  
plane division comprising volunteers  
from the various aviation quarters  
in Southern California. The plan  
calls for the volunteering of air  
pilots to make flights periodically  
over the big reserve which will aug-  
ment the government squad from  
March field in the work of detecting  
blazes.

Another splendid innovation for  
the foothill districts is the installa-  
tion of fire-trailers by the county  
which insure protection against the  
invasion of a blaze from the "ow-  
lands into the mountain area. The  
education of the public to obey the  
government laws and the willing-  
ness of the people who frequent the  
big woods to use care when per-  
mitted to build fires as well as put  
them out when they see them aban-  
doned uncovered are matters of im-  
portance for which the forest service  
is particularly grateful. This co-op-  
eration is one of the main factors  
that acts for preservation of the vast  
forest area.

According to W. B. Mendenhall  
the big reserve will be better pro-  
tected than ever before when the  
fire season approaches, due to the  
new trail work, the county trailers,  
aviators and public co-operation.

### DOCTOR PRACTICES ALTHOUGH MIND GONE

BERLIN, Dec. 22.—Herr Gehhard,  
a surgeon with a large practice in  
Schwerin, the capital of Mecklen-  
burg, has just been certified insane  
and removed to a lunatic asylum. He  
had continued to operate long after  
his mind had given way, for he was  
the proprietor of a nursing home.

It had been noticed that a dispro-  
portionate number of deaths occurred  
in the home, and during a recent  
operation the nurse who assisted him  
noticed that he went on the operat-  
ing table after the patient, a woman,  
was dead. She drew his attention to  
the fact that death had occurred, but  
Dr. Gehhard calmly went on operat-  
ing on the corpse.

After his removal to the asylum it  
was discovered that a number of un-  
usual operations had been performed  
by him. Among them was the case  
of a soldier whose arm had been  
unnecessarily amputated, while a  
woman suffering merely from inflam-  
mation of the ear had her ear re-  
moved.

### MAN RETURNED HERE ON CHECK COMPLAINT

Charged with having given a no-  
fund check to Milton Dergen, of  
Newport Beach, on September 28,  
Ollie Shetle of Long Beach was  
returned here from that city, where  
he was arrested, and placed in the  
county jail.

The check was for \$15, payable to  
J. J. Schnitker, signed by J. A. Al-  
lison and purported to be indorsed  
by Schnitker to Shetle. It was  
drawn on the First National Bank of  
Long Beach. It is alleged that Shet-  
le has from time to time passed other  
checks in Newport, but has later  
made them good, claiming that a mis-  
take was made and the check writ-  
ten on the wrong bank, or the like.  
It was for this reason, it is said,  
that Dergen did not swear out the  
complaint sooner.

### NOVA SCOTIA BUILDS WITH FEDERAL FUNDS

HALIFAX, N. S., Dec. 22.—Build-  
ing under the federal grant for this  
purpose has been a decided success  
in this city, the average house con-  
structed being a six-room cottage  
costing about \$2000. With the re-  
mainder of \$300,000 of the federal  
money about 100 more houses will  
be constructed in the city within the  
next few months.

### MAN ADMITS MURDER AND CLEARS 3 CHUMS

RUTLAND, Vt., Dec. 22.—Peter  
Lounge, one of the four men under  
arrest for the murder of Owen Hayes  
at Fair Haven, October 6, has con-  
fessed that he killed Hayes for the  
money he carried and has declared  
that the other accused men were not  
with him, according to a statement  
by county officers.

CIDER WRECKS HOME.  
CLEVELAND, Ohio, Dec. 22.—A  
terrific explosion shook the home of  
Peter Treadway and sent him to a  
hospital. Police found it was caused  
by a barrel of cider and not a bomb.

### CANADIANS FEARFUL OF YANKEE EMBARGO

WINNIPEG, Man., Dec. 22.—The  
proposal in the United States con-  
gress for application of an embargo  
on Canadian agricultural products  
is viewed with vital concern in Win-  
nipeg and throughout Western Can-  
ada in particular, but it is not believ-  
ed here that it will go into effect.  
In any event, nothing is expected  
this year, and if it should pass the  
present congress it is thought that  
President Wilson, whose term does  
not expire until March, would veto  
it, as it would in effect undermine  
the whole basis of the Wilson-  
Underwood tariff.

### MORE SHIPS ARE ORDERED TIED UP

WASHINGTON, Dec. 22.—Orders  
for the withdrawal from service of  
sixteen vessels, aggregating 87,000

deadweight tons, to be tied up at  
Baltimore, Norfolk, Seattle, and in  
the Gulf, were issued by the Ship-  
ping Board. The craft range from  
3400 deadweight tons to 9500 dead-  
weight tons.

### GOVERNMENT SCIENCE TO BE TAUGHT SOON

WASHINGTON, Dec. 22.—Estab-  
lishment in Washington of an edu-  
cational center for advanced study in  
the science of government and de-  
partmental administration will be  
undertaken by a committee of college  
professors and others recently ap-  
pointed by Paul S. Reinsch, presi-  
dent of the American Political Sci-  
ence association.

The committee plans systematic  
use of the facilities available in  
Washington for political research by  
both American and foreign students.

WE ARE MAKING  
OLD SHOES OVER  
into new ones right along for  
people who doubted our abil-  
ity to do anything with such  
old shoes as they brought us.  
But they found that a shoe  
must be entirely worn out to  
be beyond our power to re-  
pair it. Before you rush off  
and pay big money for a pair  
of new shoes bring some of  
your old ones here. We can  
very likely save you consid-  
erable money.

## For a merry Christmas morning

What a fine start for Christmas  
Day — your steaming cup of FOL-  
GER'S GOLDEN GATE Coffee!  
From the first taste — its smooth, uni-  
form flavor radiates joy and happiness.

But why not let your relatives and  
friends enjoy it too?

A 2½-lb. or 5-lb. tin of FOLGER'S  
GOLDEN GATE Coffee will make  
a practical, acceptable Christmas  
present for you to give.

Ask the lady of your own house  
how she would like such a present. See  
if she doesn't consider this a sensible  
solution to your Christmas gift prob-  
lem.

If your friends have never before  
used FOLGER'S GOLDEN GATE  
Coffee, they will always thank you for  
the introduction because you are giv-  
ing them the coffee they'll like more  
and more.
